## AIR OFFENSIVE TODAY IN NORTH ETHIOPIA

### Housing Act to Get Fair Trial, Says Dunning

Government Departments to Explore All Possible Means of Providing Employment, Finance Minister Tells Commons; Labor Minister Norman Rogers Says Public Works Only Palliative

Canadian Press  
Ottawa, Feb. 18.—Housing legislation enacted at the last session of Parliament deserves a fair trial and will be continued by the present government. At the same time the different departments of the government will explore every possible means of providing employment on productive public works.

### Japan May Have Cabinet Shake-up

Widespread Reorganization of Okada Ministry Reported Possible

Associated Press  
Tokyo, Feb. 18.—A drastic reorganization of Premier Katsuo Okada's cabinet, with perhaps resignation of the entire ministry after Thursday's election, was predicted by a majority of Japanese political writers today as prospects for a small anti-government majority increased. The cabinet, involved in the spirited campaign for Japan's first general election in four years, heard a general staff expert on Mongolian affairs outline the frontier conflicts on the borders of Manchukuo and Outer Mongolia.

War Minister Yoshitoki Kawashima also described the situation at the cabinet meeting, but no decisions were disclosed. The election campaign dealt primarily with domestic issues, first of which was whether Premier Okada and his ministry should have a popular mandate to retain office.

CLOSING OF CONSULATES  
Canadian Press from Havas  
Tokyo, Feb. 18.—Foreign Office circles today expressed regret the USSR had ordered closing of four of its five consulates in Manchukuo at a time when Foreign Minister Koki Hirota was seeking the basis for an agreement with Moscow.

### Ship to Take Off Crew In Atlantic

### SAYS COUGHLIN IS DEMAGOGUE

Boland, Democratic Whip in U.S. House, Assails Radio Priest  
Washington, Feb. 18.—Representative J. J. Boland, Pennsylvania, the Democratic whip, today assailed Rev. Father Charles E. Coughlin, Detroit priest, as a "demagogue and self-seeking impostor" and "the chief threat to our existing form of government."  
He took the floor after Representative J. J. O'Connor, New York Democrat, had said his threat to "kick" the priest was "undignified" and said "I apologize" for the manner in which he referred to "certain gobs."  
But Mr. O'Connor renewed his charge that Father Coughlin had profited "in Wall Street with his silver speculation."  
Mr. Boland told the House a representative of the Detroit priest was sitting in the gallery, looking toward the gallery, Mr. Boland said he hoped (Turn to Page 2, Col. 4.)

### FIRE FIGHT IS SUB-ZERO AFFAIR

Associated Press  
Detroit, Feb. 18.—Twenty-five fire companies battled futilely in eight below zero weather here today with a spectacular blaze which roared through the plant of the Michigan Feed and Grain Company, causing a loss estimated by company officials at \$100,000.

### Gas Explosions In Eastern City

Utica, N.Y., Feb. 18.—Several thousand persons hastily evacuated the main business section here today when a series of illuminating gas explosions set fire to two buildings and hurled manhole covers high into the air. A policeman and fireman were seriously injured. The fires were quickly extinguished, but police refused to let anyone re-enter the zone.

### CONVICT ASKS KING SAVE LIFE

California Court Requested to Decree Clemency For A. MacKay, Britisher

Associated Press  
San Francisco, Feb. 18.—Cyril Case, British Consul-General here, today filed a petition with the state Supreme Court asking executive clemency for Alexander MacKay, San Quentin convict sentenced to be hanged.

Associated Press  
San Francisco, Feb. 18.—A letter from a condemned convict imploring King Edward VIII to save his life sped through the mails today.

The writer was Alexander MacKay, a British subject, who with Joseph Kristy is under sentence to be hanged February 28 for kidnapping state police board members during an attempt to escape from San Quentin prison thirteen months ago. MacKay, who claims he is innocent of the robbery for which he was sent to prison, signed his letter Alexander Hunter, although prison files carry his name as Alexander MacKay. He is the stepson of Donald MacKay of Montreal.

APPEAL TO EDEN  
London, Feb. 18.—Neil Maclean, labor member of Parliament for Glasgow, pleaded with Rt. Hon. An. (Turn to Page 2, Col. 4.)

### T. MUSGRAVE GETS TRYOUT

Local Pitcher Signed By Yankee Scout; With Vancouver Last Year

Canadian Press  
Vancouver, Feb. 18.—Tommy Musgrave, former Victoria baseball player, signed by Bill Essex, New York Yankee scout, according to word received here.

It is said Essex saw Musgrave work in California, where he was playing soccer with other Vancouver baseball stars.

Musgrave pitched for Homes, winners of the Vancouver Senior League championship last year.

Fred Dudgeon, who caught for Homes, is the property of the St. Louis Cardinals and will go to their camp in Sacramento.

### JAIL AND PADDLE STROKES FOR MAN

Canadian Press  
Vancouver, Feb. 18.—Roy Pyle was sentenced to one month in jail and ten strokes of the paddle when he appeared before Magistrate H. B. Wood in police court and pleaded guilty to a charge of robbery with violence. Roy Fitzgerald, who was arrested with Pyle, pleaded not guilty and was committed for trial.

The men are alleged to have held up and robbed a number of couples in parked cars in the Little Mountain area.

LEADER RE-ELECTED  
Hamilton, Ont., Feb. 18 (Canadian Press).—George C. Coppley of Hamilton was re-elected president of the Royal Canadian Humane Society at its annual meeting today.

### RADIO INQUIRY FIELD IS WIDE

Canadian Press  
Ottawa, Feb. 18.—The radio committee of the House of Commons is expected to be selected this week. It will be invited to study a wide field of questions pertaining to broadcasting.

While the committee's major reference will be to propose legislation dealing with the Radio Commission, it will also be asked to reach conclusions on a number of questions on which differences of opinion have been expressed.

Sunday advertising is one subject on which complaints have been made to the commission.

Broadcasting by political parties during the last federal election will also be reviewed.

### When Cairo Student Rioters Soaked Police

Incidents in the recent riots in Egypt are pictured above. When students, demonstrating against the Government, found the police using hose on them they decided they would use the same tactics, quickly adopting the trick, they turned streams of water on the guards, as shown in the upper picture. The lower picture indicates how some of the police got a drenching while missiles hurled by the rioters cluttered the street.

### "Scotty" Campbell And Medalist Out Of Handicap Play

Defeated in First Round of Match Play For Sir Edward Beatty Trophy in Express Winter Golf Tournament  
E. L. Howard, Seattle, sixty-nine-year-old medalist, and Albert "Scotty" Campbell, Seattle, twice Canadian champion and P.N.W. amateur title holder, made their exits from the championship flight of the Express winter golf handicap competition in the first round of match play at the Oak Bay links today.

Howard was defeated by R. P. J. Featherstone of the Colwood Golf Club, 3 and 2, while Campbell, low gross in the qualifying round yesterday, was beaten by a like margin by Ralph Whaley, long driving Seattle team mate and three-handicap man, in the Sir Edward Beatty trophy play.

Despite the fact that he went out in 37, one stroke better than Whaley, Campbell was two-down at the turn.

He put a ball out of bounds off the tee to lose the seventh, and Whaley pitched up perfectly on the short, tricky ninth to win the hole with a par three.

WHALEY IN LEAD  
Whaley, who was runner-up in the Northwest amateur tourney at Spokane in 1934, was four up at the twelfth when "Scotty" carded a dis-

(Turn to Page 2, Col. 6.)

### Manitoba House Opens Session

Relief For Small Wage-earners From Income Tax Forecast  
Canadian Press  
Winnipeg, Feb. 18.—Pomp and ceremony attendant on the opening of the fourth session of Manitoba's nineteenth Legislative Assembly was tempered today by sorrow over the death of King George V.

The speech from the Throne, read by Lieutenant-Governor W. J. Tupper, paid tribute to the late monarch and referred to the accession of King Edward VIII. The customary military ceremonies were held, with the soldiers and officials in mourning.

The speech forecast an active session, during which the members will deal with much legislation, but chiefly of a minor nature, to be introduced by the Progressive government headed by Premier John Bracken. The session is the second last in the life of the present Legislature and a general election is expected before 1938.

While no important change in existing laws was forecast in the speech from the Throne, it is known the government proposes to amend the 2 per cent wage tax to permit a mes-

(Turn to Page 2, Col. 5.)

### Tons of Bombs Dropped By Italians On Emperor's Forces Seeking to Reform

Havas Correspondent in Field Says 170 Planes Used by Invaders in Attacks on Ethiopians Southwest of Makale; While People in Italy Celebrate, Ras Mulugheta Telegraphs Addis Ababa That Invaders' Claims of Great Victory Are Exaggerated and "Absurd"

Canadian Press from Havas  
Antalo, Northern Ethiopia, Feb. 18.—One hundred and seventy Italian battle planes today bombed fleeing Ethiopian warriors of Ras Mulugheta in the greatest air attack of the Italo-Ethiopian war.

The aircraft, continuing Marshal Pietro Badoglio's relentless drive against the decimated tribal detachments, rained seventy tons of explosives, attacking every Ethiopian concentration they sighted.

Thousands were believed killed and wounded. Practically every bomber and scouting plane of the northern forces was hurled into the aerial "mopping up" operation, designed to shatter the last vestige of resistance in the 60,000 Ethiopians who survived the big Italian offensive last week.

Antalo is about twenty miles south of Makale and is one of the key points of the new Italian northern battle line.

Havas News Agency  
With the Italian High Command at Makale, Feb. 18.—Italy's victorious legions today made rapid preparations to carry their major offensive twenty miles southward and storm Mt. Alaji, main Ethiopian stronghold on the road to Addis Ababa.

GENS BROUGHT UP  
While mopping-up detachments scoured the broad plateau of newly-captured Mt. Aradam to ferret out any scattered Ethiopian detachments, artillery men and engineers consolidated the positions captured in the southwestern drive from Makale last week.

Officers here said only immediate advent of the expected "little rains" now could delay complete annihilation of Ras Mulugheta's decimated forces fleeing towards Mt. Alaji.

ETHIOPIAN REPORT  
Addis Ababa, Feb. 18.—Ethiopian War Minister Ras Mulugheta tele-

(Turn to Page 2, Col. 1.)

### REVOLT SWEEPS OVER PARAGUAY

Veterans of War With Bolivia Turn Out Ayala Government and Make Col. R. Franco President  
Associated Press  
Asuncion, Paraguay, Feb. 19.—The jungle-hardened veterans of the war with Bolivia today set up a provisional government of Paraguay and forced President Eusebio Ayala to resign.

Ayala, who had fled from his palace after loyal police lost a hard battle which raged all day yesterday through the streets of the capital, submitted the resignation from the gunboat Paraguay, in the Paraguay River, on which he had taken refuge.

The message of resignation was addressed to Col. Camilo Recalde, leader of the revolutionaries, who, with his followers, proclaimed the war veterans against Italy.

U.S. NEUTRALITY LEGISLATION  
Washington, Feb. 18 (Associated Press).—The administration's stopgap neutrality resolution was adopted today by the United States Senate. The measure now goes to the White House. The act extends the present mandatory ban of arms shipments to belligerents from February 29, 1936, to May 1, 1937.

### SWITZERLAND BANS NAZIS

Canadian Press from Havas  
Bern, Feb. 18.—Nazi district and central party organizations were banned in Switzerland today by the Federal Council. This decision was a direct sequel to the recent assassination in Switzerland of Wilhelm Gustloff, German Nazi leader, by a young Jewish medical student.

### Convicts Attack Guards As Outgrowth of National Election and Amnesty Proposal

Associated Press  
Madrid, Feb. 18.—Prison riots flared across Spain today in the wake of the national election won by extremists whose campaign included amnesty for participants in the 1934 Socialist rebellion.

A total of ten persons have been killed in riots inside and out of prisons. Following riots in the prisons at

Cartagena, Valencia, Zaragoza and Burgos, in which two are known to have been killed and a score wounded, the prisoners in the Gijon city jail mutinied.

FURNITURE WRECKED  
They overpowered their guards, burned mattresses, smashed the prison furniture, and howled for their liberty.

Detachments of shock police surrounded the jail and prevented a general break, but the prisoners retaliated by barricading themselves within the building and defying the guards to enter. The guards, not willing to fire into the massed convicts, obtained tear gas from army garrisons and poured that into the cells.

### POOL WHEAT PRICE IS SET

Premier King Says Payments For 1930 Crop Will Be Equalized at 60 Cents

Canadian Press  
Ottawa, Feb. 18.—Payments to farmers for pool wheat of the 1930 crop will be equalized on the basis of 60 cents a bushel No. 1 northern, Fort William, under legislation to be introduced in Parliament shortly. Prime Minister King stated in the House of Commons this afternoon.

### Earl Beatty Regains Strength

Canadian Press from Havas  
London, Feb. 18.—The condition of Earl Beatty, retired admiral of the fleet, who has been suffering since last Saturday from a heart ailment, was reported to be satisfactory in a bulletin issued by his physician today, Dr. C. N. Groves.

### OIL SANCTION DEBATE MARCH 9

Associated Press  
Geneva, Feb. 18.—Dr. Augusto Vasconcellos, chairman of the League of Nations sanctions committee of eighteen, proposed provisionally today that the body meet March 9 to act on the question of an oil sanction against Italy.

### RIOTS FLARE AT SPAIN'S PRISONS

Cartagena, Valencia, Zaragoza and Burgos, in which two are known to have been killed and a score wounded, the prisoners in the Gijon city jail mutinied.

FURNITURE WRECKED  
They overpowered their guards, burned mattresses, smashed the prison furniture, and howled for their liberty.

Detachments of shock police surrounded the jail and prevented a general break, but the prisoners retaliated by barricading themselves within the building and defying the guards to enter. The guards, not willing to fire into the massed convicts, obtained tear gas from army garrisons and poured that into the cells.

# Ontario In Grip of Icy Gale Today

## Air Offensive Today in North Ethiopia

(Continued from Page 1)

graphed to the government today a denial of Italian claims of victory south of Makale on the northern front.

Ras Mulugheta said there were several patrol skirmishes last week in which the Italians lost "heavily" and the Ethiopians suffered thirty-one killed and seventy-five wounded.

A government communique, describing the Italian claims of a victory south of Makale, and an advance of sixteen miles to Amba Aradam—as absurd and impossible, probably will be issued tomorrow, authoritative sources said.

Marino Brophill, Irish Red Cross representative who returned recently from the north, was summoned to the palace, where he signed a statement, to be published soon, designed to show the Italian claims unreasonable.

## CELEBRATIONS IN ITALY

Rome, Feb. 18.—The Italian Government today decreed an appropriation of 1,530,000,000 lira (about \$122,400,000) for extraordinary colonial military defence expenditures as the whole nation, led by Premier Mussolini, celebrated a victory over the Ethiopians in the battle of Amba Aradam.

At Duce's direction, the Italian tricolor flew from thousands of buildings throughout the country, giving vivid testimony to the nation's rejoicing over the triumph.

## KING SENDS MESSAGE

King Victor Emmanuel joined in the celebration, telegraphing to Marshal Pietro Badoglio, commander-in-chief of the Italian armies in Africa, who led the offensive last week against Amba Aradam.

The army in northern Ethiopia swung into the task of consolidating the positions taken during the great six-day drive, officially known as the "battle of Endera."

Italian dispatches said the fleeing forces of Ras Mulugheta, Ethiopian War Minister, had made a weak attempt to counter-attack Sunday night, but were repelled by the big guns of the Fascist artillery.

## REPORT ON CASUALTIES

Rome, Feb. 18.—Italy's casualties in the battle of Endera were set at 186 dead and 696 wounded; while Ethiopia's losses were estimated at between 5,000 and 6,000 dead and twice as many wounded in a report today from Marshal Pietro Badoglio.

## DESSEY HONORED

Addis Ababa, Feb. 18 (Canadian Press from Havas).—Italian battle planes, carrying out sweeping attacks along the entire northern front, have again scored a hail of bombs on Dessey in an apparent effort to kill Emperor Haile Selassie, the Ethiopian government announced today.

An Italian Caproni bomber flew over the Ethiopian imperial headquarters yesterday and dropped thirty bombs, which, however, did not inflict any casualties and did little property damage.

Another attack was made on Sunday, but failed to achieve any great damage, the announcement said.

## CANDIDATE FOR GOVERNOR

Washington, Feb. 18 (Associated Press).—Senator Elmer A. Benson today announced his candidacy for governor of Minnesota on the Farmer-Labor ticket. He said Governor Floyd B. Olson would "definitely" be a candidate for the United States seat to which he appointed Benson following the death of former Senator Thomas C. Schall, Republican.

## Highway Travel Interrupted; Horse Sleighs Used For Delivery Purposes in Hamilton

Canadian Press  
Toronto, Feb. 18.—Winter's icy lash curled about storm-scarred Ontario today in another stinging attack.

Whipped in on a northerly gale, thick snow brought renewed discomfort to road travelers while the temperatures went tobogganing in the province's central and western areas.

It hung around over most of Ontario, and the westerner promised "decidedly cold," with more wind blowing down.

A blizzard was reported at Caledonia after an overnight fall of six inches and a temperature of 8 below zero.

Delivery companies in Hamilton brought out horse sleighs, unused for years.

At Fort Erie the storm drove lake fishermen ashore. Snowdrifts clogged highways in the area.

Highway and railway ploughs were out at Orangeville, where it was 10 below zero. Orangeville is fifty miles northwest of Toronto.

## COLD IN U.S.

Chicago, Feb. 18.—Continued cold, with more snow, bigger ice jams, renewed threats of floods, additional deaths and further isolation for numerous United States communities was in prospect today.

Shipping was hampered by high winds on both the Atlantic and Pacific coasts, and by ice jams on rivers and canals of the interior.

While temperatures rose slowly in the Dakotas, and along the Atlantic Coast yesterday, the forecasts generally were for colder weather and more snow.

Freezers finally broke the month-long imprisonment of Hatfield, Mo. yesterday evening to bring fuel and food to 200 beleaguered villagers, whose larders neared exhaustion.

A dozen men escaped injury from an avalanche of snow and rocks that swept out of a mountain camp in the mountains near Mancos, Colo., killing six persons, including a woman camp cook.

## Housing Act to Get Fair Trial, Says Dunning

(Continued from Page 1)

Housing Act passed last July by the United States legislature would receive a fair trial. He admitted it was not perfect, but its defects could be determined only after a trial.

The government, Mr. Dunning disclosed, has an eye on British and United States legislation providing assistance in home renovation and repairs. He doubted if the Housing Act was the proper machinery for loans of that sort and certainly it had no application to large slum-clearance schemes.

## SELF-SUSTAINING

Referring to reforestation and land settlement, the Finance Minister said each government department was studying the possibility of providing work that would create employment and be self-sustaining.

He argued it was futile to spend money to build a post office with the one result of increasing, for all time to come, operating expenses. The work plans the government had in mind were productive, he emphasized, and self-sustaining.

## LABOR MINISTER SPEAKS

Hon. Norman Rogers, Minister of Labor, told the House the government was in dealing with unemployment and housing problems should consider the stability of the social and economic structure and preservation of balance between private activity and public investments on the one hand and governmental activity and investment of public funds in public works on the other.

"It is legally possible," he said, "to start a public works scheme which would give employment to all those physically fit and to pension the remainder at the age of sixty."

"I wish I could advocate that policy, but I cannot do so because I do not believe that providing employment on a large scale by public works is anything more than a palliative for the present economic ills and would, I believe, lead ultimately to far greater evils than now exist."

## PRIVATE FINANCE MUST HELP

In pursuing its policy the government would expect private finance and industry to do its duty in providing the maximum employment possible.

Financial leaders had already expressed concern over the consequences of governmental spending and unbalanced budgets. If private interests failed to do their part they would have to realize that governments might have to go much farther in providing employment than they had done yet.

## COMMISSION PLAN

Turning to the question of co-operation between the Dominion, provinces and municipalities in unemployment relief, Mr. Rogers said there should be established a national commission to guide and coordinate all efforts. This commission is one of the government's proposals and one of its duties will be to deal with housing, reforestation and land settlement in co-operation with the provinces. It will be a co-ordinating body.

## CONDEMNNS RELIEF CAMPS

Relief camps, Mr. Rogers continued, must be condemned, not for their administration, but as a major policy. The camps had cost about \$23,000,000 since 1933 and the maximum pun-

# Cold Wave Gives Coal Miners Work

ber in them was 15,000 men. On the basis of the same cost, there could have been 21,000 men placed on farms in 1933 and paid \$10 a month the year around. In 1934 there could have been 65,000 men placed on farms and 73,000 in 1935.

"The more I look into the camps," he said, "the more convinced I am it is a wise policy to close them as quickly as possible; and I might say when they are closed—perhaps this year—it will be on the basis of measures that will have the support of the country and, I believe, the support of the men who are in the camps."

What the government had in mind to relieve unemployment would be announced in the House later. The Department of Labor was taking a census of the unemployed, finding out ages, occupations, education and all about them.

## GOVERNMENT WILL DIRECT

The government, Mr. Rogers said, would not seek to escape responsibility behind the unemployment commission. Its duty would be to give direction which, he believed, had been lacking in the past.

The government, moreover, would not seek to hide the truth about unemployment, no matter how unpalatable it might be, Mr. Rogers concluded.

## HEAPS SPEAKS

A. A. Heaps, Labor, Winnipeg said he was greatly disappointed in Mr. Rogers' speech. He did not think if all the hopes it contained were realized it would give work to a single unemployed man.

Mr. Rogers had placed all his reliance on private interests, the heads of big corporations and balanced budgets.

The government placed its reliance in a commission, said Mr. Heaps. If the government itself with all its power could do nothing for unemployment a commission could do less.

The present government's policy was a "policy of inaction." What was needed was a "policy of action."

The present government sooner or later would be forced to the same conclusion the Bennett government had come to, that it was a case of "control or chaos."

Private enterprise, Mr. Heaps said, could not afford to erect the houses needed in Canada. The only solution was for the government to foot the bill at a low interest rate, as governments had done in other parts of the world.

## SOCIAL CREDITOR SPEAKS

W. Hayhurst, Social Credit, Vegreville, Alberta, said: "We believe every individual citizen of Canada should be paid whether he works or not."

We have more machines idle in Canada today than we have men idle. We are talking about putting men to work when we should be talking of putting machines to work for the benefit of men."

## DIAGNOSIS NEEDED

E. G. Hansell, Social Credit, MacLeod, Alberta, said the important thing was for the government first to diagnose the country's economic ills and then apply the proper remedy.

Although some words from the Prime Minister were encouraging, he had heard little in Parliament so far to indicate the government had diagnosed the ills properly of had any idea of the remedy for them.

Miss Agnes MacPhail, U.F.O., Labor, Grey-Bruce, Ont., supported the Church motion. She believed the federal government should give national leadership in housing.

M. J. Coldwell, C.C.F., Roseauville, Sask., also supported the Church resolution, particularly because it was directed at slum clearance.

## WOODSWORTH'S VIEWS

J. S. Woodsworth, C.C.F., Leamington, Ont., said the government of doing too much to study and not enough to action. The situation had to be faced and acted on.

No matter what the commitments were or the state of the treasury, the welfare of the people must come first, Mr. Woodsworth urged.

Mr. Woodsworth said reforestation was a national concern in Canada and the Dominion should put men to work if the provinces could not provide the money.

## CHURCH'S DISAPPOINTMENT

Mr. Church, in withdrawing his resolution, expressed his disappointment with the statements of the Minister of Labor. It would be a disappointment to labor throughout Canada if it showed the Minister of Labor should be a labor man and not a professor.

The government proposed a commission to handle unemployment, said Mr. Church. The unemployed would all be dead before the commission found what it was all about.

## TREKKERS HIT BY CIVILIANS

(Continued from Page 1)

"He said it was up to the chief. Things got rather warm," Mr. Winch said.

"Passing the buck," asked Judge A. E. Donk, who was hearing the evidence.

"I guess so," the witness agreed.

## SCENES IN STORE

B. M. Timmins, floor manager of the Hudson's Bay Company's Grandville Street store, where relief strikers smashed showcases and hurled shards about the main floor, said he believed the trouble started when officers began moving some of the demonstrators out of the store.

## POLICE CHIEF HEARD

Canadian Press  
Vancouver, Feb. 18.—Chief of Police W. W. Foster yesterday afternoon told the royal commission investigating the Regina riot of July 1 last, that far from relief can strikers having the upper hand in Vancouver during April and May, the police could have brought them under immediate control by using the resources within their power.

He referred to the seizure of the

## Increased Wages Also For Train Crews as Alberta Companies Ship Much Fuel

Canadian Press  
Drumheller, Alta., Feb. 18.—The coal miners of Drumheller Valley, working every day now, were jubilant today over the sub-zero cold wave that has continued unabated for almost a month over western Canada.

They constituted one section of the prairie populace that was not eager to see a break in the long cold spell.

The severe weather was a boon to railway workers too. Train crews have been busy twenty-four hours a day hauling coal to all points on the prairie back orders. We coal goes to Saskatoon daily from the Drumheller field.

Since February 1 the average daily output of domestic coal from Drumheller Valley has been 300 cars—between 10,000 and 11,000 tons. By February 15 the output exceeded 400 cars, considerably that for the entire month of February, 1935. If the cold weather continues for another week, an all-time production record for February will be accomplished.

Every mine in the valley is working to full capacity. Western Canada dealers in recent years have not been carrying as large stocks as prior to 1929, and have been selling a great deal directly from cars. The cold spell caught many of them short.

## CONVICT ASKS KING SAVE LIFE

(Continued from Page 1)

thony Eden, Foreign Secretary, today to try to save Alexander MacKay, twenty-nine-year-old fellow townsman, from the gallows in California.

MacKay has been ordered to die for the murder of a woman named Quentina in a prison in California. He is the stepson of Donald MacKay of Montreal.

Following his interview with Mr. Eden, the white-haired Scotman told the Associated Press:

"Mr. Eden promised to investigate the case. Apparently, all we can do is seek clemency for MacKay."

But if there is politics involved in the death sentence, as charged by MacKay's attorney, I will bring the matter before the House of Commons."

"There is no chance of freeing him from California despite his British citizenship."

## COURT MOVE

Washington, Feb. 18.—An attempt will be made in the Supreme Court today to aid Alexander MacKay, California convict, under sentence to die on February 28, for whom the British Government has intervened with California officials.

Although Supreme Court attaches said today there was nothing on the docket of the highest court in regard to the case, it was learned preliminary papers have arrived here and records from the California courts are expected later. Until these arrive and the case is docketed definite information will not be made public.

MacKay, a British subject, and any idea of the remedy for them. He was a daring escapee from San Quentin prison more than a year ago in which prison officials were wounded and kidnapped. He faces death under a California kidnap law.

## SAYS COUGHLIN IS DEMAGOGUE

(Continued from Page 1)

that representative would go back and tell the priest that "I, too, defy him."

## INCONSISTENCY CHARGED

"Has not this silver-brick artist the understanding to see the inconsistency of his position as he stands before the altar with one hand on the Gospel and the other engaged in counting the speculative silver he has acquired?" Boland asked.

Growing more vitriolic as he progressed, Boland shouted: "God keep America safe and bless members of the Legislature who have courage to resist the self-seeking demagogue who would betray America as Judas betrayed the Saviour for a handful of silver."

As he finished, Representative Sweeney, Ohio Democrat, marched down into the well of the House to "thank God for Father Coughlin."

"I thank God," he said, "that the constitution is not suspended and we still have the right of free speech."

Detroit, Feb. 18.—Rev. Michael A. Gallagher, Bishop of Detroit, said today that "all this petty bickering between Rev. Charles E. Coughlin and Representative John J. O'Connor will cool off before February 28, when Father Coughlin says he will appear in Washington. "Fighting on the steps of the Capitol is a very vulgar and absurd idea."

The bishop said he would take no official action in the controversy, which arose when Father Coughlin in an address, charged that O'Connor was "a servant of the money changers." The Congressman retorted with a threat to kick the priest.

## Revolt Sweeps Over Paraguay

(Continued from Page 1)

military forces in Asuncion—joined the rebels.

Col. Franco, Chaco war hero who was dismissed from the army and exiled by the previous civilian government in connection with alleged communist activities, was at his end of exile in Buenos Aires, Argentina, and was expected to return soon.

The military rebellion arose in the aftermath of the Gran Chaco warfare between Paraguay and Bolivia, one group of Paraguayan militarists having expressed dissatisfaction over the terms under which the civilian government agreed to halt hostilities.

Argentina took precautions to prevent the Paraguayan situation from precipitating incidents along the frontier, ordering a river flotilla to proceed up the Paraguay and Parana rivers to the border.

## READY TO RETURN

Buenos Aires, Feb. 18 (Associated Press).—Col. Rafael Franco, exiled Paraguayan army hero who has been proclaimed Provisional President of Paraguay, said today there was nothing radical about the revolution which has called him to power.

"The Paraguayan movement," stated Col. Franco, "is not extremist. Rather, it represents the voice of 40,000 veterans."

Franco is expected to return to Asuncion, capital of Paraguay, as soon as he receives a formal invitation from the revolutionary government which deposed President Ayala.

Representatives of the United States, Argentina, Brazil, Chile, Peru and Uruguay—making up the neutral commission which ended the war in the Chaco between Paraguay and Bolivia—awaited news from Asuncion anxiously.

They were worried as to what effect the revolution might have on the neutral committee plans for the repatriation of prisoners held by the nations. The revolution broke just as the neutrals were ready to initiate the exchange of prisoners.

Washington, Feb. 18 (Associated Press).—Secretary of State Hull said today he believed the revolutionary outbreak in Paraguay would have no effect on President Roosevelt's plan for a Pan-American peace conference.

## Manitoba House Opens Session

(Continued from Page 1)

ure of relief to wage earners in the lower brackets.

Legislation growing out of the Dominion-Provincial Conference last December and revision of statutes were forecast in the speech from the Throne.

"In connection with the further development of our primary industries," said the speech, "and as a means of providing a measure of employment, you will be urged to approve a project for public development of a part of our marsh land resources in northern Manitoba for fur trapping and fur farming purposes."

The session started by the members today may be the last before a general election.

## Dr. G. S. Mothersill Dies in Ottawa

Ottawa, Feb. 18.—Dr. George S. Mothersill, Ottawa surgeon and distinguished war veteran, died today, two weeks after being overcome by carbon monoxide gas in his garage. He was forty-nine.

He was appointed lieutenant-colonel of the 8th Battalion in 1917. Wounded once, he returned in 1919 with his troops.

## "Scotty" Campbell And Medalist Out Of Handicap Play

(Continued from Page 1)

astrous seven to lose the hole. Campbell rallied, however, to play perfect shots on the difficult twelfth and thirteenth holes. Par three left him only two down.

The break in the match came on the 394-yard fifteenth hole, a dog-leg hole breaking to the left. Both golfers drove 240 yards but Campbell, in attempting to play a half shot with his number six iron to the green, looked up and pushed his ball into the rough. From there he missed a short niblick pitch into a bunker beside the green. Whaley was safely on in two and was down in two putts from twenty-five feet. This made him dormie three. The sixteenth was halved in par fours and the match was all over.

Campbell still remains a favorite to win the open competition.

## CHAMPIONSHIP FLIGHT

Dave Randall of Uplands put another Seattleite out of the running, beating E. J. Ketchum, five-handicapper, at the nineteenth in the first round of the handicap tourney.

Frank Burns, Seattle, defeated W. P. Borden, 5 and 4, and D. Nicol, Portland, trimmed C. L. Havens, Seattle, 6 and 5. Ted Slingsby won from J. R. Morris, 3 and 1.

A. B. Christopher defeated Norman Fell, 2 and 1, and Harold Brynjolf-

## NEW SPRING SHOWING Mallek's

son defeated Rees R. Hall, Seattle, 4 and 3. W. Earles, Seattle, defeated A. J. Taylor, Wetaskiwin, 5 and 3, and C. W. Walker eliminated W. L. McIntosh, 2 and 1.

## SECOND FLIGHT

In the second flight B. Waudo defeated W. B. Leach 3 and 1. Irving McDermott defeated Alan Riches 4 and 3. B. D. Todd won from J. H. Wilson 5 and 4. Alec Rose, Seattle, defeated Steve Jones at the twentieth; W. J. Boyd won his match against C. A. Thompson at the nineteenth. G. K. Thompson, Seattle, defeated W. L. Alexander 1 up, and T. O. Mackay defeated R. Field at the twentieth. J. M. Nichol defeated R. S. Peighal, Seattle, 7 and 6, and Captain O. Cox won from John Affleck Winnipeg, 2 and 1.

W. Merston defeated E. L. Mann, Wenatchee, 4 and 3. J. D. Laurie beat J. D. B. Campbell 3 and 1. H. W. Jones, Spokane, defeated H. H. Allen 1 up; Ralph Rogers, Vancouver, beat C. E. Wilson 3 and 2. A. V. King beat R. F. Castle 2 and 1.

## CONDITIONS BETTER

Playing conditions were much improved today. The greens were not as hard as yesterday and the course generally drew favorable comment from the golfers. The temperature was about thirty-six in the shade and much warmer under the bright sun.

## RIVERSIDE INN IS SOLD FOR \$25,000

Sale of the Riverside Inn at Corvallis Lake, Vancouver Island, to Mr. and Mrs. Peter Hardie, former operator of the Castlegar Hotel at Castlegar, B.C., for \$25,000, was announced in Vancouver today.

The inn was built and operated for the last three years by Edward Hemmingsen.

## COLD TODAY IN NORTHERN B.C.

perature mark in history of Stewart of nineteen degrees below zero.

Anox reported six below, while subzero temperatures continued in the interior, with Burns Lake showing forty-two below.

It was overcast and starting to snow in Prince Rupert this morning with the temperature thirteen above at 8 a.m. Yukon temperatures were twenty-two to fifty below zero.

## CONSUL WINS DIVORCE DECREE

Associated Press  
Reno, Nev., Feb. 18.—Wilbur Kiehlinger, newly-appointed United States consul-general at Victoria, B.C., won a default divorce decree from Mrs. Harriet D. Kiehlinger of Washington, D.C., in district court here today.

He charged separation for more than five years, desertion and cruelty. They were married December 20, 1904, at Greenville, Miss.

Kiehlinger formerly was consul-general at Singapore.

## No Pact For Use Of Naval Bases

Associated Press  
London, Feb. 18.—Prime Minister Baldwin today told the House of Commons Great Britain does not intend to offer the United States the use of her naval bases in exchange for an agreement by which the United States would reduce the size of its battleships.

The question of calling for tenders for the work of auditing the books of the municipality of Esquimalt will be referred to the finance committee, it was decided last night, when an amendment to that effect, proposed by Councillor Albert Heald to a motion by Councillor T. Harry Hodgson that the council call for tenders, was carried by the council. Reeve Alexander Lockley pointed out that registered chartered accountants were not permitted to compete with each other for tenders.

## BENEFITS OF BACTERIOLOGY

**Dr. C. E. Dolman Gives Talk on Prevention of Diseases By Vaccines**

"You are only getting a fraction of the benefits of bacteriology," said Dr. C. E. Dolman, acting head of the department of bacteriology at the University of British Columbia, in a paper on Bacteriological Research in Relation to Health and Disease, before the University Extension Society at the Girls' Central School yesterday evening.

"These were practically forced on you, not sought by you," he continued. "And yet, during the last fifty years the average expectation

of man's life has increased by twenty years from forty to sixty."

Cholera, the terrible death dealer of the Orient, had not come to Canada, not because of any particular cleanliness on the part of the average individual, but because of the activities of the quarantine stations and the port authorities.

The same might be said of the Black Death, Malaria, the great scourge of the tropics, was kept out of Canada mainly by the climate, Dr. Dolman declared.

**TYPHOID**

There were outbreaks of typhoid almost all the time in the Dominion, but they were of small importance, due to the work of the health authorities. Widespread death from this disease had been stamped out by laws controlling water and milk supplies and not by any actions of individuals.

Smallpox, he said, could be exterminated from the earth by immunization with vaccine.

"Vancouver, I am sorry to say, has the worst smallpox record of any city in Canada," Dr. Dolman said. "The city seems to have too many people

with a greater regard for their conscience than the public health of the masses."

"We can allow for ignorance, carelessness and stupidity, but in the case of obstinacy, it is my opinion we should have coercion. In the last epidemic in the city, every single unvaccinated person who contracted the disease died of it."

**VENEREAL DISEASES**

Dr. Dolman stressed the criminal apathy toward venereal diseases. For thirty years the cause of syphilis had been known, and for sixty years the bacteria that caused gonorrhea had been isolated, but little in the way of prevention had been accomplished.

"There is not one among you who has not welcomed to your home at some time a person suffering from syphilis," he said.

Venerel diseases were more contagious than leprosy, he averred, and yet when a single isolated case of leprosy was found in Canada, the sufferer was transported across the Dominion in a railway carriage to himself. Finally, when he arrived in Vancouver, the press got to hear of it, and though the carriage had been thoroughly disinfected on a sliding

public opinion demanded that it be burnt.

A few months ago, the Connaught Laboratories at the University of Toronto, had established a western division with four research workers at the University of British Columbia.

The aims of this bacteriological laboratory, the speaker declared, were not merely interprovincial, but international for as all nations had been represented in the fathers of bacteriology, so to all nations would go its fruits.

At the beginning of his lecture, Dr. Dolman traced the history of bacteriology from the Dutch storekeeper who had ground lenses as a hobby and watched his "little animals" crawling around in a drop of water, to Pasteur and the modern bacteriologist, who isolated diseases and fought them with serums.

The speaker illustrated his lecture with lantern slides, many of which were graphs showing the drop off in mortality and morbidity of specific diseases due to the introduction of vaccination.

J. L. Watson, president of the society, was in the chair.

## WILL CONFER ON ESTIMATES

**City Council Seeks Explanation of School Trustees' 1936 Budget**

The City School Board shortly will be called upon to meet the finance committee of the City Council and explain the 2.75 per cent rise in teachers' salaries in the current year's budget when there is a decrease of 2.5 per cent in the school population.

At the council meeting yesterday evening when the board's estimates were presented, Mayor Leeming drew to the attention of the council the fact that teaching was costing more despite a decline in the school population.

Last year, the net school costs were \$425,700, and this year they were \$454,100, which included a payment of \$22,766 for sinking fund purposes, an amount not appropriated last year.

This left a total of \$431,300 to compare with last year's figure, which represented an approximate increase of \$8,000. This, with a decrease of \$5,120 in interest and debt charges, made the increase around \$11,000.

## TO CONSIDER AUDIT COSTS

**Independent Check of City Departments Is Ultimate Aim of Committee**

The cost of an independent audit of civic departments will be investigated by an augmented finance committee of the City Council, following a move launched at yesterday evening's meeting by Ald. A. McGavin.

Ald. McGavin proposed to engage an outside firm to inspect the city's books and review financing over the last three or four years, but was persuaded to withdraw his motion pending an investigation into the cost of such a move.

Ald. Ed. Williams seconded Ald. McGavin's motion and supported his argument the audit should be called not only for the protection of the people but also for the protection of the aldermen.

Ald. R. A. C. Dewar wanted to know what the cost would be.

"So much your head will swim," answered Mayor Leeming.

Ald. McGavin suggested Price, Waterhouse and Company be asked to submit an estimate for the audit.

The mayor suggested the audit proposed by Ald. McGavin would cost \$20,000.

The suggestion of Ald. Lunney was supported by Ald. Stanley Okell.

Ald. McGavin did not think his proposal would cost more than \$6,000, but he agreed to withdraw his motion and refer the matter to the finance committee with himself and Aldermen Wills and Williams sitting in.

The motion was read after Mayor Leeming had reported further funds towards restitution of money missing in the road and poll tax collections had not been forthcoming. He suggested the city should make a claim on the bonding company for the missing amount and any arrangement for restitution should be continued with the bonding company.

This suggestion was adopted and on motion of Ald. J. D. Hunter instructions were issued to have the claim made.

## ASK PROVINCE FOR INQUIRY

**Investigation Asked of Esquimalt Beer Parlor Incident**

Investigation of the much discussed incident in an Esquimalt beer parlor on August 24 of last year will be asked by the Attorney-General's department, it was decided at last night's session of the Esquimalt Council, with only three councillors casting their votes.

At the last session of the council the matter was referred to the Liquor Control Board for an inquiry. In a letter received last night the board replied that it had no power to act in such a manner.

The motion referring the question to the Attorney-General's Department came from Councillor Frederick G. Eaton, and was seconded by Councillor Clarence L. Pullen.

Councillor T. Harry Hodgson, Councillor Albert Heald, who first pressed for an investigation, taking it as a platform in seeking a seat on the municipal police commission at the last elections, and Councillor Thomas Hadfield, on general principles, turned their backs on the table and refrained from voting.

Councillor David A. Henry voted contrary.

On recommendation of the parks committee the City Council yesterday evening decided to again sponsor a contest among relief recipients for promoting garden cultivation. Prizes of \$20, \$15, \$12.50, \$7.50 and \$5 will be given by the committee.

## Dickens Film Wins Approval

**Local Fellowship Pays Tribute to Production of "A Tale of Two Cities"**

Hollywood had done a splendid job in bringing Charles Dickens' "A Tale of Two Cities" to the screen. It was unanimously agreed by members of the Victoria Dickens Fellowship at a meeting in the Women's Institute rooms, Fort Street, last night, after considerable discussion of the film.

A paper comparing the movie with the book was read by Mrs. Dorothy H. White. Members expressed their appreciation of Ronald Colman's portrayal of Sidney Carton.

Tentative plans were made to hold a Dickens entertainment in the near future. The date and details of the programme were left to the executive committee to prepare and it is expected members of the Vancouver fellowship will be guest artists.

Hubert Cressy led another debate in connection with the screen play of "The Old Curiosity Shop." This book provided a difficult task for the producers and in consideration of that fact, the general opinion was that it had been well filmed. The costumes and details of scenery were particularly good.

Among items of interest submitted by the members was an extract from the "Christmas Carol," where Dickens makes reference to Old Marley being "as dead as a door nail."

Henry Woods, in submitting this item, explained exactly what a door nail consisted of, with reference to the old house of John Knott in the Canongate, Edinburgh, where still fixed to the old oak door is a real old Scottish "door nail," consisting of a heavy chunk of iron with a small hammer like head. When the hammer, or knocker, is lifted and dropped against the door nail it makes the dearest of all dead sounds and is a chill unechoing crash.

Mr. Woods further remarked Charles Dickens could never have visited that old house in the Canongate, or he would not have said in reference to old Marley being as dead as a door nail—"I don't mean to say that I know of my own knowledge what there is particularly dead about a door nail."

Nearly all quotations given by members in answer to the roll call were extracts from the film version of "A Tale of Two Cities," proving how much the local fellowship had taken this film to heart.

## STAMPEDE IS NOT TO TRAVEL

Calgary, Feb. 16.—The province of Alberta and the Calgary Exhibition and Stampede Board are willing to co-operate in every way to assist in making Vancouver's Golden Jubilee celebrations a success next year, but they agree no financial outlay should be undertaken, it was learned here yesterday.

Mayor McGee of Vancouver recently forwarded a letter to the Calgary city council suggesting Calgary and Vancouver co-operate in holding the Jubilee celebration this year and the British Empire Exposition in 1938. The letter was turned over to the Calgary Exhibition Board, and the board in reply yesterday said it had received a letter from Premier Aberhart of Alberta stating the province also was willing to co-operate, but was not prepared to assume certain financial responsibility in connection with a proposal to have the Calgary Stampede in Vancouver.

The government felt it would not be justified in lending financial aid to an exhibition or stampede being held in another province.

Estimates from the British Columbia Electric Railway Company and Holmes Sheet Metal Works, Vancouver, for the installation of a central heating plant in the City Hall were referred to the executive of the public works committee for consideration by the City Council yesterday evening.

## HOSPITAL PLEA IN ESQUIMALT

**Jubilee Delegation Requests More Assistance From Municipality**

The Esquimalt Council last night heard the Jubilee Hospital's plea for further assistance from the municipality, brought by a delegation consisting of Hugh Allen, chairman of the board of directors of the hospital, H. H. Shandley, James Forman and D. D. Muir. No action was taken.

The hospital, said Dr. Allen, was seriously in debt, and was finding considerable difficulty in carrying on with the present grants, owing to the large number of indigent cases. Esquimalt had paid in 1935 the sum of \$2,336 in grants to the hospital at the prescribed minimum rate of 70 cents per patient per day. The actual cost to the hospital had been \$4,462 for Esquimalt indigent cases alone.

"As far as Esquimalt is concerned, indigent work is the main point," said Mr. Allen.

Graduates and members of the staff were having to carry the load of the hospital's difficulties, he said. Accounts, which should run for thirty or sixty days at the most, were now ninety days due.

He asked the council to consider an extra grant this year to take care to some extent of the difference between expenditures and receipts on Esquimalt cases.

**TAXPAYERS AT LIMIT**

Reeve Alexander Lockley said that the municipal taxpayers had gone to the limit in shouldering burdens of this sort, which should rightly rest on the shoulders of the whole population, not landowners alone. He considered the matter one for the provincial government.

"We are going to impress on the government that soon not only hospital costs, but social services and education as well have got to be lopped off—or else we are going to go out of business—not only us but other municipalities."

Mr. Shandley pointed out that the provincial government paid 70 cents per day towards all cases, but that in unorganized districts this was the only payment, making the burden on the hospital all the heavier.

"The city of Victoria carries your end and Shandley's end—we cannot ask more from them. We ask you to keep your end up."

Mr. Forman asked the councillors to think of the Jubilee as a hospital.

**PARTNERS IN HOSPITAL**

The city, he said, had paid towards the construction of the buildings and the provision of new equipment. The municipalities got the benefit from all that. "You are entitled to it, but we would like you to realize that you are partners in this great work. The hospital refuses nobody."

"Education is looked on as a necessity. You pay 100 cents on the dollar for that. Hospitals are an equally important work, safeguarding the health of the public, but you think differently about paying for them."

He suggested that the council in making its estimates raise the grant to \$1.00 per patient per day.

Reeve Lockley mentioned the advisability of a provincial government service tax to cover social service costs.

Councillor Frederick G. Eaton pointed out that it was not only the hospital, but also the relief men who suffered, because the municipality simply had not the money to pay them all they deserved.

## The Best GRAY HAIR Remedy is Made at Home

YOU can now make at home a better gray hair remedy than you can buy, by following this simple recipe: To half pint of water add one ounce bay rum, a small box of Orlex Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it yourself at very little cost. Apply to the hair twice a week until the desired shade is obtained. Orlex imparts color as streaked, faded or gray hair, makes it soft and glossy and takes years off your looks. It will not color scalp, is non-toxic and does not rub off.

## "HEIL HITLER"

OPponents of STATE HEALTH INSURANCE are depending for their arguments upon findings of Herr Gustav Hartz, a prominent Nazi economist of Germany, who has written very considerably on the subject. In a general way the terms the system a failure in his country after half a century's practice. "Will America Copy Germany's Mistakes?" is the title of a brochure which he has written and is translated for the Pennsylvania Self-Insurers Association, Finance Building, Philadelphia. On the basis of this document attacks have been instituted against state health insurance generally, and now we have one in this province in the form of a pamphlet headed, "Will British Columbia Copy Germany's Mistakes?"

This is a very nicely-printed affair, carrying two Swastikas, Hitlerized Germany's emblem, on Canadian-made paper and distributed among the members of the Vancouver Board of Trade last September. The pictorial part of it is allotted to photographs of palatial buildings in Bremen, Dresden, Cologne, Magdeburg, Leipzig, Merseburg, and Berlin. Some of these edifices would appear to be almost as large as the Parliament Buildings in this city. The readers of "Will British Columbia Copy Germany's Mistakes?" are asked to consider "a mental picture of the enormous sums of money used up in administrative expense under social insurance," which obviously but very clumsily implies that for British Columbia to conduct a system of State Health Insurance it would be necessary to build several edifices on something of the scale of the Parliament Buildings. Germany is a nation of 67,000,000 people. British Columbia is a province of about 750,000.

Explanatory of these buildings, Herr Hartz says in part: "What gigantic sums of the workmen's capital is invested in the buildings in which the offices are housed can be calculated from the figures of the administrative apparatus. In many towns the buildings of the social insurance are the largest in the whole city. In the period 1918 to 1932 particularly, so much money was invested in these palatial buildings that it resulted in a public scandal. The sick insurance palaces and the unemployment office buildings vied in size and splendor with the administrative palaces of great financiers and industrial concerns, or representative public buildings." There is a good deal more printed in the pamphlet in the same tone.

It is unfortunate for opponents of a health insurance scheme for British Columbia that they have to find inspiration in a country whose present-day philosophy is in conflict with everything in the way of social progress for which the English-speaking race stands; a country of civil and religious oppression, of racial persecution, of "bloody purges" and Jewish pogroms; which is arming to challenge by force the principles and institutions which characterize British civilization.

What kind of an interpretation could be expected from Hartz or any other Nazi of a system the very essence of which is democracy, and the beneficiaries of which must be all people regardless of their racial or religious origin, whether they be Aryan or non-Aryan, Jew or Gentile, Protestant or Catholic? It is because health insurance, which has operated successfully in Germany for fifty years, falls foul of the hideous concepts of Hitlerism, that it is marked for destruction along with every other social service which has survived in Germany from the days before the first crazy.

A dictatorship which burns the immortal compositions of Mendelssohn and proscribes Einstein and Ludwig because they are Jewish, is not likely to number among its champions anybody with a friendly feeling for State Health Insurance and Herr Hartz as a Nazi apostle, must be regarded as a discredited authority at the outset. Opponents of health insurance in this province must be hard pressed for propaganda when they have to adopt the sinister ideas of Hitlerism and recommend their acceptance by the people of British Columbia. We are surprised that the Vancouver Board of Trade permitted the circulation of a Nazi-born pamphlet among its members designed to facilitate propaganda against a policy of the government of its own province.

Nazi Hartz's onslaught on health insurance in Germany has been countered by Prof. Henry A. Sigerist, professor of the history of medicine at the Johns Hopkins University of Baltimore, who says of the system:

"It has repeatedly been pointed out that the average number of days of sickness has increased enormously since sickness insurance was introduced. While in 1888, one hundred insured were ill on an average of 547 days a year, the number increased the following way: 1913, 856.6 days; 1924, 1,084.5 days; 1925, 1,250 days." Professor Sigerist points out, however, that this does not mean that the population is less healthy, or that there is less malingering, that the days of sickness have increased but the days of treatment. He then goes on:

"Many illnesses that had gone untreated formerly, today are given medical treatment in time, preventing fatal consequences. The general health-conditions have undoubtedly improved tremendously, and this is illustrated by the fact that shortly after a lost war, famine, revolution, inflation, and all the disturbances of a post-war period, the German health conditions were just as good as in the best situated, victorious countries. It is further illustrated by the fact that the health conditions are better in the highly-industrialized centres than they are in the rural districts."

Professor Sigerist admits that the German sickness insurance is far from perfect, that it could be greatly improved, as it no doubt will be. He does claim, however, that "it has served the people's health well for half a century, and NO EUROPEAN

## COUNTRY THAT HAS ADOPTED A SICKNESS INSURANCE PLAN COULD EVER AFFORD TO ABANDON IT.

It should be noted that Professor Sigerist—who, by the way, was born in Paris—has contributed profusely to the realm of medical literature. He has studied in universities in Germany, Great Britain, Switzerland, while several of his scientific treatises have been translated into half a dozen languages. He assumed his present important post at Johns Hopkins University in 1932. All of which will suggest to the lay mind that he knows well whereof he speaks.

## A REMARKABLE RECORD

AUTHORITIES AGREE THAT THE VICTORIA PUBLICITY BUREAU is one of the best conducted organizations of its kind on the continent. It is the pioneer community tourist publicity agency in Canada, and was the chief inspiration for the travel bureau operated by the federal government. It is conspicuous among the various bodies organized for this work on the Pacific Coast where connections have been developed over many years with every other public and private travel association as far south as Mexico. It has put this city in an enviable position on the tourist map at a cost which has been negligible in comparison with the results that have been achieved.

The record of 1935, as reflected in the annual report presented at the annual meeting of the organization yesterday, was highly satisfactory. It showed that Vancouver Island in the last twelve months had the largest tourist travel ever recorded in any single year with the exception of the peak years of 1929 and 1930. Nearly 27,000 motor cars came here and, based upon the reports 1,599 visitors who gave detailed accounts of their expenditures, it is estimated that the total sum expended by tourists during the season exceeded \$2,265,000, to which must be added some \$40,000 invested by them here. The aggregate expenditure of the bureau was \$24,389, or just over one per cent of the total spent by visitors. This means that for every dollar of Bureau outlay, \$100 of new money went into circulation on the island through tourist travel.

Undoubtedly other publicity agencies made important contributions to this record, but if only a fifth of the tourists were drawn here by the advertising of the Victoria Bureau its activities would be more than justified. Over 3,400 inquiries through the Evergreen Playground Association—the co-operative organization composed of cities of the Pacific Northwest—and 27,000 received through other agencies, notably the Dominion Travel Bureau were supplied with literature dealing with the island. More than 110,000 maps and folders were distributed, and 889 pictures were reproduced in newspapers and magazines throughout the world.

It is interesting to note the immense field which was reached through the many articles written by Frank Giolma, the Bureau's able publicity writer. The combined paid circulation of the various newspapers and magazines to which Mr. Giolma's contributions were sent is 27,000,000 and 50 per cent of the articles already have been published. This field embraces publications in Great Britain, this continent, the Orient and Honolulu; there is scarcely an important newspaper and magazine in Canada and the United States which has not contained an interesting article on Victoria or Vancouver Island. It is impossible to overestimate the value of this publicity, or to be too extravagant in praise of the organization which has established such extensive ramifications.

This newspaper feels that it can say without reservation that nowhere else is there an organization doing this kind of work which can show such an astonishing record of achievement at such little cost. Against that record the expenditure of \$24,389 is of peanut insignificance—like much of the criticism which is directed against the outlay. Incidentally, anybody who can conduct his own business so successfully on so small a percentage of outlay must be too busy to find fault with the Bureau, and if Victoria as a whole could show a similar result in its manifold public and private activities, the community would be on Easy Street. The Bureau by long odds is the most efficient organization operating in this community, which would be hopeless indeed if it did not appreciate the value of its work.

## What Other Papers Say

IF?  
The Columbus Ohio State Journal

Inevitably and eventually something will happen to Hitler, Mussolini, and Stalin. If "money lies the fact that dictators always stand on more or less unstable ground. These men or any of them may become the victim of that too ready vengeance which frequently is taken in the Old World, all of them some day will die, and their deaths may come in the peak of their power, or the people of their abused countries may rise in revolt.

"IDLE MILLIONS"  
The Ottawa Citizen

What do all these millions of deposits show in the weekly statement of bank clearings mean, then? They mean simply a huge stream of bank credit on its way to cancellation, but temporarily held up. If people would keep always in mind the cardinal fact that bank deposits are created by bank loans (including under bank loans the purchase of government securities, which means a loan to the government), they would stop talking of the idle millions in the way they do now.

WHY ALGEBRA?  
The Halifax Herald

Agnes Macphail, M.P., condemns "the teaching of algebra to farm children." For our own part, we would eliminate "farm"—because in this materialistic world, with the great majority hard up against the necessity of earning a living, we can see little use for algebra. In fact, about the only use to which it can be put in the affairs of ordinary people today appears to be the writing of Dominion Civil Service examinations, in search of the "unknown quantity." We suppose 98 per cent of the adult population of this province could think immediately of a half-dozen practical subjects that might more usefully and profitably be taught to Nova Scotia children. Algebra is no meat ticket, whatever else it may be.

## Loose Ends

Vancouver couldn't resist the temptation—and is delighted to rub one—humiliation in Vancouver and the prayer doesn't seem to have humbled its fierce and ruthless pride. I knew that Vancouver, still Vancouver, untransformed, could not resist the temptation offered by the recent humiliations of us Scottish people in Victoria. I felt sure, when I heard the news, Vancouver would start to rub in the bitter fact that the last haggis consumed here in honor of Robbie Burns had to be imported from Vancouver.

By BRUCE HUTCHISON

## JEALOUS CITY

Vancouver, under the dispensation of my pious friend, Mayor McGeer, has held two annual days of humiliation and prayer. But there is still no sign of humiliation in Vancouver and the prayer doesn't seem to have humbled its fierce and ruthless pride. I knew that Vancouver, still Vancouver, untransformed, could not resist the temptation offered by the recent humiliations of us Scottish people in Victoria. I felt sure, when I heard the news, Vancouver would start to rub in the bitter fact that the last haggis consumed here in honor of Robbie Burns had to be imported from Vancouver.

I knew Vancouver wouldn't be big enough to ignore the mortification of Victoria and, of course, it wasn't before me in an editorial in The Province rubbing it in. With a kind of ghoulish glee, a leer which is certainly not a look of humiliation and prayer, the editorial recites the recent haggis incident, which has shaken this city to its depths. It tries to make out that I was the cause of the trouble. It seems to think that I have been gravely injured, perhaps wounded and martyred because I dared to mention haggis at all. It pretends to express sympathy with us in our tragedy and sheds crocodile tears all over the editorial page.

Yes, but the proud spirit of Burrard Inlet, the valour of False Creek oozes from between the lines. It is a great day for Vancouver when it can get something on us; a great day when we have to get something from Vancouver. And when we have to go to Vancouver for the very air of the covenant, for the haggis itself on Burns Night, well, Vancouver's joy is complete. For the real truth, of course, is that Vancouver has suffered for years from an inferiority complex. Like all the newly-rich, it secretly admires the culture of its poor neighbor. It has envied us our Victorian culture, our superior civilization, for years.

After all, we have had all the real marks of learning and gentility while Vancouver has had only the money and the worldly success, which mean to go to Vancouver for the very air of the covenant, for the haggis itself on Burns Night, well, Vancouver's joy is complete. For the real truth, of course, is that Vancouver has suffered for years from an inferiority complex. Like all the newly-rich, it secretly admires the culture of its poor neighbor. It has envied us our Victorian culture, our superior civilization, for years.

We have another cultural advantage which Vancouver has always envied. I refer, of course, to the little white bear in Beacon Hill Park which is the only one of its kind in captivity; whereas Vancouver has had to struggle along with an ordinary Russian bear called Trotsky, and a few monkeys. We have not only the sea but the mountains, and the mountains are not only a part of the landscape but a part of the life. We have not only the sea but the mountains, and the mountains are not only a part of the landscape but a part of the life.

mean). They had a cocktail party. I ain't never bin to no cocktail parties, not 'oldin' with strong drinkin', if you can get it. Hanways, the Brown-Birkett's give a cocktail party and we knowed it must be good because you could 'er 'em singin' all the way down to the bottom of the 'ill.

"My boy Alf—Alf's a plumber, you know, and gets around a lot of swell 'omes—puttin' in the cutest bathroom set you ever seen, right now, kind of pink and mulberry color, so pretty you would almost take a bath because you wanted to—Alf 'e says cocktails is the most respectable drink there is. It's this way, Alf says—if a lady was to drink rum by itself, it would be vulgar. If she was to drink whisky neat, 'er friends would think she was a bit tough. If she was to drink gin, they'd say she was low-down. But put 'em all together in a cocktail, like dynamite, and then they're the most ladylike and genteel drink you can 'ave. Flappers drink 'em. Grandmothers drink 'em. Bless you, I 'ad one once and it tasted so good, I could almost love me 'usband. They're good that way, cocktails. They make you into yuman bean. I dare say those rich folks on the 'ill drink a lot of 'em, just so they'll love their 'usbands and vice versa.

"I thought I wanted to tell you, sir, was about singin'. It was real nice to 'ear them singin' on the 'ill. You don't 'ear much singin' nowadays, except on the radio. People used to get around a piano and sing their 'earts out when I was a gel, and it made 'em feel better. They didn't 'need cocktails, then. Just singin'. Now we got to have cocktails before we sing, but it's worth the trouble, because singin' does a world of good to your 'eart.

"It's got so nowadays, that we let somebody else do all the singin' for us. We sit at the radio and listen to Major Bowe's amateurs instead of singin' ourselves like we used to. But 'tain't natcher. It's natcher to sing and as soon as they get a few under their belt—their own swells up on the 'ill—they sing like any yuman bean. If it wasn't for a few 'armless cocktails and the like of that, you wouldn't 'ear hannybody sing except the professionals that do it because they 'ave to. People should sing because they want to and we uster in my time, but people was applier then. They didn't need rum and gin to keep up their spirits. A pint of hale was plenty when I was young.

"They got paid hexperts to do our singin' for us, and laundries to do our washin' for us and the government does the radio, so do our latins, 'er 'as. Well, my old man says all 'e 'opes is they wouldn't get no hexperts to do our drinkin' for us. There's some things a person would druther look after themselves."

KNOWLEDGE  
SINCE I'VE BEEN going to school," said the little girl from next door, as I gave her a lift to town yesterday, "I've learned most things. There practically isn't much more to learn except the last three pages of the reader. I can add and multiply and divide now. That's very useful, isn't it?"

farce. The farmer gets 10c per bushel more for his wheat and then is charged \$1.00 per sack more for his flour, and proportionate increases on all other commodities that he has to buy.

Those requiring price control are such concerns as the millers, meat packers, woolen factories, shoe manufacturers, etc. Let us look at the meat question as a sample, and it is no worse than the average.

Quoting from the "February 5 issue of The Free Press Prairie Farmer, we get the following: "Choice steers (highest grade offered), \$5.50; good steers, \$4.75; medium steers, \$4.00. Yet we find steak cut from 'good' and 'medium' carcasses selling at 40c a pound.

Even allowing a 40 per cent loss between live weight and beef, 30c per pound, there is still no possible excuse for 40c steak.

The milling companies are milling 70c wheat and selling two and one-half bushels (100 pounds flour) for \$2.75 carload lots—\$1.00 per two and one-half bushels. Flour is sold, plus thirty-seven pounds bran, fifteen pounds shorts or 41c. This represents a 2,000-barrel mill a profit of \$5,200 per day less operation costs which, under present mechanical conditions, are of comparatively small account.

Where is the point of controlling the output of the farmer, while these concerns are allowed to dictate and maintain these huge spreads and profits out of that which the farmer produces, often at a loss, and seldom at a fair return for his labor?

Please tell us, Mr. Editor, what a "government" is for if not to protect the people it is supposed to represent, from such exploitation as this? THOMAS BATESON

## LOCAL WRITERS IN HIGH PLACE

Publisher Mentions Prominence of Edna Jacques and Nellie McClung

The prominent place in a very small field of successful Canadian writers held by an authoress and a poetess who are both residents of Victoria—Nellie McClung and Edna Jacques—was mentioned in an interview at the Empress Hotel this morning by G. A. Allen, of Thomas Allen and Company, Toronto publishers.

Mr. Allen arrived in Victoria this morning for a three-day visit in the course of a spring selling tour of Canada on behalf of his company, which is the Canadian representative of several prominent United States publishers, including Putnam's of New York.

Miss Jacques' latest book had completed a sale of 2,000 copies and was now entering its second impression. The book was a great success in the east, where Miss Jacques was now lecturing.

Mrs. McClung's "Clearing in the West" had already sold to the extent of 5,000 copies, an excellent figure. "Magnificent Obsession," which his company was publishing in Canada, had rated 14,000 copies.

**INDICATION OF PROSPERITY**  
In the rise of book sales, Mr. Allen saw an excellent indication of a returning prosperity in Canada. The book trade, essentially a luxury business, was always an excellent barometer of conditions generally, and all book stores reported a heavy Christmas trade, and a large increase in total sales during the last year.

The reading taste of Canada, said Mr. Allen, was definitely improving, especially among the younger generation. Readers were turning to better fiction and a higher proportion of non-fiction matter.

This improvement might in part be attributed to the change in policy of movie producers, who were now turning out pictures of a considerably greater literary merit.

Mr. Allen considers Victoria warm. "I had my ears frostbitten five or six times on the way across and this is a pleasant change," he said.

Councillor Frederick G. Eaton last night informed the Esquimalt council that John Donaghy, 517 Paradise Street, had complained that a gang of about twenty boys had molested him, throwing stones at him, breaking down his fence and turning loose his cows. The matter was referred to the chief of police.

## ?? THIS IS A PICTURE OF—WHAT ??

It is obvious, is it, what is pictured here? Well, you are in for the surprise of your life unless you are an inordinately clever solver of Photo-foolers. Though your wits go round and around, and you "swing" it with a vengeance, nothing will come out except a baffling puzzle. The solution of this Photo-fooler will be found on page 16 of The Times. Turn to it now to see if your guess about the picture is right, and watch for another Photo-fooler tomorrow.

## POLICE ISSUE IS DEFEATED

City Council Turns Down Plan For Commission of Elected Aldermen

A move by Alderman Walter Loney to seek amendment to the Municipal Act providing for the replacement of the present City Police Commission with a committee of the Mayor and aldermen was defeated by the City Council yesterday evening.

The motion reviving a contentious issue and the attack on it was led by Ald. Andrew McGavin who based his opposition on the grounds that the people should have the right to say how the police department administrators should be elected.

If any amendment to the act were to be sought it should be an amendment which would permit the people to have their say on how the police commission was to be elected, Ald. McGavin said. The motion before the council, he continued, proposed to choose commission from the aldermen by secret ballot and he opposed it.

**RIGHT OF PEOPLE**  
He said the police commission was a body which spent \$110,000 a year and the people had every right to decide on the manner of electing the administrators of these funds.

Ald. Loney assured Ald. McGavin there was nothing personal intended by this motion. He had it on good authority the city would never have their former privilege returned and this suggestion was the next best thing in his mind. This would give the people control through elected representatives, he said.

Ald. Ed. Williams also opposed the motion, supporting Ald. McGavin's argument. If Ald. Loney was aware the franchise was not to be returned to the people, the best thing the council could do was ask for its return, he said.

**ADMIT PRESS**  
He contended, however, that the present commission was conducting public business and for that reason the press should be admitted to the meetings. He had learned that camera meetings were necessary on some occasions but he did not think com-

mission meetings should always be private. His opinion was there should be a decision one way or another on the issue.

Ald. Archie Willis said he did not think Victoria should remain under the stigma which the Municipal Act placed upon it by excepting it, the capital city of the province, as the only one which did not elect its police commission. The municipalities of Esquimalt, Oak Bay and Saanich were allowed to elect police commissioners but Victoria had been denied the right.

He had no criticism of the force or its administration, but he felt this stigma should be removed.

Ald. McGavin said he was satisfied a referendum on this issue would carry with a huge majority in favor of having the people elect the commission.

When the vote was taken there was no show of hands, the "no" apparently outnumbering the supporters.

## COMMISSIONER IS EMPOWERED

Judge Algernon Ernest Doak of Saskatchewan will sit as a royal commissioner in Vancouver to take evidence on the "On-to-Ottawa" trek of relief camp strikers last year.

It was announced here today as the formal order empowering him to act was issued by the provincial government.

Judge Doak is furnished with the full powers of a commissioner under British Columbia law and will give to report his findings to the British Columbia Government as well as the Saskatchewan Government.

His commission permits him to investigate facts surrounding the departure of the camp strikers from Vancouver to Ottawa and other matters incidental to the march.

The inquiry, it is specified, must be without cost to British Columbia.

**CITY PROFITS ON BOND DEAL**  
A profit of \$8,000 was made by the City Council yesterday evening in authorizing a bond exchange recommended by the finance committee. The city exchanged \$127,000 in Dominion of Canada 3½ per cent bonds due 1949, for \$125,000 in C.N.R. 3 per cent bonds, due 1953, guaranteed by the Dominion of Canada at \$97.50.

**Germany Sells More to Canada**  
Exports to Americas in 1935 Increased By Nearly One-third  
Berlin, Feb. 18.—Germany's exports to Canada and the Americas increased by nearly one-third during 1935, according to official figures published here yesterday.

Exports to Africa, Asia and Australia rose from 15 to 18 per cent, but exports to European countries declined about 4 per cent. Aggregate exports to all countries increased by 23.8 per cent.

## WANT MORE OF HOSPITAL BILL

Legislation Would Require Full Municipal Payment, Mayor Tells Council

Legislation is now being prepared at the Parliament Buildings for presentation at the approaching session, which would require Esquimalt and Saanich to pay their full share of hospital charges annually. It was introduced by Mayor Learning at the City Council meeting yesterday evening.

The mayor's announcement came after a letter had been read from Hon. G. M. Weir, Provincial Secretary, in which he said he was not prepared to make any statement on the position of Saanich or Esquimalt being called upon to pay the differences between their per diem guests and the actual cost of administration to the Jubilee Hospital.

Saanich and Esquimalt at present pay seventy cents a day for every municipal patient, but this amount does not cover the cost of treating municipal patients. The city has been investigating its legal responsibility in this respect with a view to making them pay the full amount.

The mayor said he understood this legislation was being prepared, but what would happen to it at the session he did not know.

## GYROS TAUGHT USE OF EMBLEM

Applications of Gyroscope Explained and Demonstrated By E. W. Izard

Members of the Victoria Gyro Club got a new insight into the principles and applications of their emblem, the gyroscope, at their luncheon yesterday, from E. W. Izard, assistant manager of Yarrows Limited, who illustrated his address with models and slides.

Taking a small gyroscope, Mr. Izard set it spinning, and showed that if left free in its mounting it would always remain pointing in the direction in which it was originally set. He then attached a weight to one end of its axis, and showed that instead of the end being pulled down by the weight, it turned, or precessed, in a direction at right angles to the pull applied.

He then showed the gyroscope which controls the course of a naval torpedo, setting it spinning and demonstrating its action on the rudder through relays. This was the first important use of the gyro, he said.

**STABILIZING SHIPS**  
The use to which the biggest gyros were put was next explained—that of stabilizing ships.

Mr. Izard had plans and photographs of the installation in the Italian liner Conte di Savoia, with three big wheels weighing 110 tons apiece, turning at 950 revolutions per minute. The entire system, including motors, weighed 1½ per cent of the liner's 48,000 tons, and cost approximately \$12 per hour to operate.

It was only used in rough seas. Mr. Izard explained that to prevent a ship from rolling, the roll had to be caught at the very beginning. For this purpose small control gyros were used, which set mechanism in motion to turn the main gyros in a direction at right angles to their axis of rotation. On the principle of precession, the gyros reacted in a direction op-

## Children Attend Valentine Party

Sidney, Feb. 18.—A children's fancy dress Valentine party, under the auspices of the Allie's Chapter of the I.O.D.E., proved a success on Friday evening in Stacey's Hall.

About fifty children joined in the grand march, during which the costumes were judged by Mrs. Ethel Rose Burns and Miss A. B. Cook of Victoria. The judges were later presented with bouquets of daffodils, narcissus and fern by Mrs. O. J. Rochfort, regent of the chapter.

Games were then played, the children being divided into groups, under the supervision of Mrs. Ethel Rose Burns and Miss A. B. Cook of Victoria. The costumes were later presented with bouquets of daffodils, narcissus and fern by Mrs. O. J. Rochfort, regent of the chapter.

The costume prize winners were: "Jiggs", boy, Mervyn Gibson, golly-wog; Most original—Girl, Ethel Gibson.

## How to Keep Colds UNDER better CONTROL

Catching Cold?...  
Vicks Vapo-Rub helps  
Prevent many Colds

At the first warning nasal irritation, snuffle or sneeze, use Vicks Vapo-Rub—just a few drops up each nostril. Vapo-Rub is especially designed for the nose and upper throat—where most colds start. It stimulates Nature's own functions—in the nose—to help prevent colds, and to throw off head colds in their early stages. Used in time, Vapo-Rub helps avoid many colds.

Follow Vicks Plan for Better Control of Colds  
A helpful guide to fewer colds and shorter colds. Developed by Vicks Chemists and Medical Staff; tested in extensive clinics by practicing physicians—further proved in everyday home use by millions. The Plan is fully explained in each Vicks package.

**VICKS PLAN FOR BETTER CONTROL OF COLDS**

Caught a Cold?...  
Vicks Vapo-Rub helps  
End a Cold Sooner

If a cold has developed, rub Vicks Vapo-Rub on throat and chest at bedtime. Vapo-Rub acts direct—two ways at once: (1) By stimulation through the skin like a poultice or plaster; (2) By inhalation of its medicated vapors direct to inflamed air-passages. Through the night, this combined vapor-poultice action loosens phlegm, soothes irritation, helps break congestion.

Follow Vicks Plan for Better Control of Colds  
A helpful guide to fewer colds and shorter colds. Developed by Vicks Chemists and Medical Staff; tested in extensive clinics by practicing physicians—further proved in everyday home use by millions. The Plan is fully explained in each Vicks package.

## GOLFERS ENJOY SUPPER PARTY

Delightful Affair Preamble to  
Empress Winter Tourna-  
ment Entertainment

Some cynic once said that the most popular hole on any golf course... played equally well by either "dub" or star performer, was the nineteenth. Be that as it may, the "cocktail hour" and buffet supper arranged at the Empress Hotel yesterday evening as the first item on the social calendar for the entertainment of golfers participating in the Empress winter tournament was a most popular one.

Most of the out-of-town golfers were present and evidently enjoyed this first manifestation of Victoria's spirit of hospitality, remaining to enjoy the dancing which followed the serving of the buffet supper. Mr. and Mrs. J. K. Hodges and Mrs. Charles E. Wilson, head of the local entertainment committee, welcomed the guests in the Tudor grill.

LOVELY DECORATIONS  
Tall baskets of pussy willows and Japanese plum blossom were arranged at the entrance to the grill and on the orchestra dais, a lovely note of spring which evoked the admiration of the visitors.

Supper was served from long tables centred with an artistic arrangement of daffodils and narcissi, illuminated by tall green tapers in branched silver candelabra, and with the additional decoration of beautifully made spun sugar baskets holding "daffodil" flowers of most tempting design and color.

Dancing was enjoyed until nearly midnight to the strains of the hotel orchestra, led by William Tickle.

The evening was a delightful preamble to the round of entertainment arranged in connection with the golf week. Tonight a concert is to be given in the ballroom, tomorrow evening a dinner dance from 7:30 till 11:30 o'clock, will be held, and on Saturday evening a cabaret with some specially attractive and novel numbers will constitute the grand finale.

THOSE PRESENT  
Those present included: Captain and Mrs. Wallace Langley, Mr. E. L. Howard, Mrs. Hazel F. Wolfkill, Mr. and Mrs. C. P. Constantine, Mr. Ralph Whaley and Mr. and Mrs. G. K. Thompson, Mr. W. Stedman, Mr. and Mrs. Carl L. Havens, Mr. and Mrs. E. Ketchum, Mr. Frank Burns, Dr. W. W. Barlow, Mr. and Mrs. L. G. Pattullo, Mr. "Scotty" Campbell, Mrs. J. C. Baldwin, Mr. and Mrs. D. B. Baldwin, Mr. and Mrs. Rees, R. Hall, all of Seattle.

Mr. and Mrs. W. N. Toothill, Mr. and Mrs. W. B. Pickard, Mr. and Mrs. J. A. Affleck, Mrs. Northwood, and Miss Barbara Northwood, Winnipeg; Mr. C. E. Willis, Stettler, Alta.; Mr. and Mrs. A. J. Taylor, Westsaskin, Alta.; Mr. and Mrs. W. C. Fisher and son, Calgary; Mr. H. O. Johnston, Camrose; Captain A. B. Gurney, Dr. Thomas E. Roberts, Mayne Island; Mr. C. E. Iverson, Galiano.

Mr. Douglas Nicol and Mrs. James Nicol, Portland; Mr. and Mrs. E. L. Mann, Wenatchee; Mr. and Mrs. R. W. Jones, Spokane; Mr. R. S. Peighle, Bremerton; Mr. and Mrs. Adolph Schmidt, Olympia; Mr. Ralph Rogers, Vancouver; Mr. and Mrs. Wallace MacMillan, Winnipeg; Mr. and Mrs. D. K. Yorath and Mrs. C. J. Yorath, Calgary.

Victorians present included Mrs. Hew Peterson, Mr. and Mrs. Charles Henley, Colonel and Mrs. Lennox Irving, Mrs. Burton Curtis, Mr. and Mrs. W. Munro, Mr. H. Haynes, Mrs. A. K. Mitchell, Miss Gladys Irving, Mrs. Gordon Money, Miss Nora Wilson, Mrs. W. P. D. Pemberton, Mr. and Mrs. F. E. Winslow, Mr. and Mrs. C. W. Pangman, Mrs. J. Laurie, Mr. and Mrs. J. H. Wilson, Miss Margot Robertson, Mr. and Mrs. W. A. R. Hadley, Mr. Don Campbell, Mrs. Mary Campbell, Miss Ruth Jones, Dr. and Mrs. J. S. McCullum, Captain O. Cox, Mr. and Mrs. W. B. Leach, Captain and Mrs. W. C. Merton.

Mr. and Mrs. Ellbeck Wilson, Mr. Goldwyn Terry, Mr. Charles Heisterman, Miss Eleanor Heisterman, Mr. R. Morris, Miss Lennox, Miss Margaret Lindsay, Mr. Norman Fell, Mrs. J. R. McIlreath, Mrs. Z. Huse, Dr. and Mrs. Boyd, Miss Lota Mackay, Mr. T. C. Mackay, Mr. and Mrs. Horsey, Mr. and Mrs. B. B. Horton, Mr. and Mrs. W. G. Crawford, Mrs. Christopher Vokes, Captain Mitchell, Mr. and Mrs. Colin Rutherford, and Mr. and Mrs. Macdonald.

**M'GILL "WIDOWS"  
FORMING CLUB**

Montreal, Feb. 18.—Golf widows and bridge widows have become widely known during the past few years, but a new type—student widows—now seek to entertain themselves here while husbands are hearing lectures.

McGill University's "dames," more respectfully known as the wives of undergraduates enrolled at the university, gathered yesterday and formed a social club. Activities will include badminton and bridge, and an inaugural team will take place March 2.

Question of naming the organization was deferred. McGill women were not sure they wanted to follow the example of similar clubs at Yale and University of Chicago that christened themselves simply, "The Dames."

About twenty of McGill's thirty-five odd "lonely ladies"—as one university official dubbed wives of students—attended the meeting. Mrs. Seymour Dudley was chosen president and Mrs. Gerald Walsh secretary.

## OFF TO OAK BAY LINKS

Mr. and Mrs. E. W. Jones of Spokane, Wash., contestants in the Empress winter golf tournament, are seen stepping into their car at the Empress Hotel, en route to Oak Bay.

## PERSONAL

Mr. C. W. Lonsdale, principal of the Shawinigan Lake School for Boys, has left for California and the southern states in the interest of his health, and expects to be away for the next few months.

Miss Enid Rogers, who has been visiting in Winnipeg and last week was in Calgary as the guest of Mr. and Mrs. L. A. Vanderlake, left the Alberta city on Friday evening for her home in Victoria.

Mr. and Mrs. J. A. Lyle, of St. Charles, Ont., who have spent the last six months in Washington and Oregon, arrived in the city today and will be guests this week at the home of their cousins, Mr. and Mrs. D. McCall, 534 Third Street.

Major and Mrs. R. G. Maxwell, who have been resident at The Angels for some time, left yesterday for Vancouver where they will spend a week while en route to California to visit in San Francisco and Pasadena for a few weeks.

The many friends of Mrs. Dale Pitt of Premier B.C. will be interested to learn that she, with her son and daughter, Robert and Elizabeth, will arrive in Vancouver next Tuesday and will spend the week of February 20 for Australia, where they will join Mr. Pitt and make their future home.

The Victoria City Kennel Club will hold a bridge and five hundred party at the K. of C. Hall Saturday evening, February 22, at 8:15 o'clock. Anyone wishing to reserve tables may do so by telephoning Mrs. J. R. Clarke, E 2536, or Mrs. E. H. Woolston, G 5468.

Mrs. Carron B. Jamieson was hostess at the tea hour this afternoon at her home on St. Ann Street, when she entertained in compliment to her sister, Mrs. Harvey Sutherland of Yorktown, Saskatchewan, who is visiting for the winter months in Victoria.

Mr. and Mrs. Bruce Carpenter of Yokohama, who have been spending the month in eastern Canada and the States, have returned to Victoria en route to their home in the Orient and are spending a week in Victoria with Mrs. Carpenter's brother-in-law and sister, Mr. and Mrs. Peter Wentworth Bell, Bowker Avenue.

Commander E. C. Redgrave-Gunner, R.F.C., W.W.B., London, England, and Juneau, Alaska, is in Victoria. He was married recently in Grand Forks, B.C., to Mrs. Ethel Cammett of Fairbanks, Alaska. He is a well-known air pilot in British Columbia, California and Alaska. Commander and Mrs. Redgrave-Gunner will take a new Great Lakes airplane with them to Anchorage, Alaska, next week. They left for Seattle today and will sail for Alaska on February 22.

Frank Brown Jr. entertained a number of his school friends Friday evening at a jolly Valentine party at the home of his parents, Wellington Avenue. Games and dancing were enjoyed. Mrs. Brown was ably assisted by Miss Dorothy Davies in serving the refreshments. The invited guests were: Misses Elaine Munroe, Mildred Irwin, Dorothy Davies, Helen Fuller, Warren Bishop, Pearl Fleming, Irene Pearce, Iris Dixon, and Sybil Holyoak; Messrs. Don Trowey,

Don Nelson, Ritchie Hughes, Ian Bishop, L. Duncan, Kingston Smith, George Schwabe, Douglas Kent and Frank and Harry Brown.

Among the guests registered at the Dominion Hotel are Mr. G. Hymers, New Westminster; Mr. A. V. Parkhurst, Vancouver; Mr. R. S. Moffatt, Vancouver; Mr. H. Thompson, Vancouver; Mr. J. Dermott, Vancouver; Mr. C. P. Starck, Vancouver; Mr. N. D. McPhree, Vancouver; Mr. J. Bruce Seattle; Mr. C. B. Berry, Seattle; Mr. A. and C. Chapman, Vancouver; Mr. J. S. Waugh, Seattle; Mr. C. R. Matthews, Seattle; Mr. S. J. Lane, Vancouver; Mr. N. Browning, Vancouver; Mr. Reed Palmer, Vancouver; Mr. T. G. Monaghan, Quilicum Beach; Mr. C. G. Phinney, Vancouver; Mr. A. Parker, Parksville; Mr. and Mrs. L. P. Poirer, Vancouver; Mr. R. P. Corliss, city; Mr. A. McKenzie, Vancouver.

A shower in honor of Miss Alice Madders, whose marriage will take place shortly, was held at Mrs. A. Hobbs' home, Luskton, on Saturday evening. Mrs. Mill of Langford and Mrs. A. Morrow were joint hostesses. Five hundred was played, the first prize being carried off by Mrs. Eldridge; second, Mrs. Tracey; third, Mrs. Eldridge; fourth, Mrs. Tracey; fifth, Mrs. Eldridge; sixth, Mrs. Tracey; seventh, Mrs. Eldridge; eighth, Mrs. Tracey; ninth, Mrs. Eldridge; tenth, Mrs. Tracey.

Through the kind hospitality of Mr. and Mrs. J. E. Fuller the Centennial choir held a delightful party at their home, 602 Garbally Road on Friday evening. Mrs. M. Trevor and Mr. E. Waldron, who are shortly to be married, were the guests of honor. The programme of games under the conductance of Mr. J. Almond was thoroughly enjoyed. Much interest was displayed in the archery contest, each contestant having to shoot at the centre of a cardboard heart with bow and arrow. Decorations were carried out in a scheme characteristic of Valentine's Day. The table was centred with red lace hearts. Mrs. J. Almond and Miss J. Hay served dainty refreshments. Mr. Paul Green presented Mrs. Trevor with a gift of silver a token of appreciation for her many years of valued service as a choir member. Mr. J. W. Buckler, conductor of the choir, and the Rev. G. G. Macdonald, who presided, both presented Mrs. Trevor with their felicitations and paid tribute to the faithful and efficient assistance given by Mrs. Trevor to the choir.

Mrs. George Campbell was hostess on Monday afternoon at a delightful children's party given in honor of her small son, Ronald, who was celebrating his fourth birthday. During the afternoon the young guests played games, while coloring balloons gave added amusement. Tea was served later from an attractively decorated table, centred with the birthday cake and its four candles, while on either side illuminated crimson tapers cast a soft glow over the pretty appointments.

## PROBLEMS OF B.C. DESCRIBED

V. L. Denton Addresses  
Y.W.C.A. Girls on "Pro-  
vinces By the Sea"

Describing Canada as an elongated strip with definite problems of distribution, V. L. Denton, principal of the Normal School, speaking at the Y.W.C.A. on Monday evening, predicted that these problems would be solved or else the country would be broken into separate parts, according to geographical necessity. He suggested a study of the situation and an intelligent use of the franchise.

Mr. Denton's talk was the fourth in a series of lectures given every Monday evening at 8 o'clock in the clubrooms under the auspices of the Senior Girls' Business Club. Again a large audience filled the room, a number remaining afterwards for a Valentine social sponsored by the Junior Girls' Business Club. Mr. Denton spoke in place of Mrs. Hazel Hodson, who was unable to be present owing to illness, but whose lecture will be given later in the series. Mrs. D. M. Duncan will speak next week on "The Art of Being a Friend." Speaking on the subject "Provinces Bordering the Sea," Mr. Denton dealt with the geographical divisions of Canada, and pointed out that Canada is suffering somewhat because of the scattered nature of its population.

Explaining that Canada's railways had been built to provide outlets for trade by east and west, Mr. Denton stated that this 40,000 miles of railway was the highest percentage per capita system in the world and presented a problem which would have to be faced.

"UNDIGESTED" FOREIGNERS  
Another problem facing Canada was the question of unrestricted immigration. Canada's order, in comparison with the conditions of the United States was due in part to the fact that she was not flooded with what he described as "undigested foreigners." He gave it as his view that it would be far better to have the railways for another twenty years, as a burden, rather than have such immigration.

Going into specific detail, Mr. Denton described the main industries of British Columbia and the benefit to trade since the opening of the Panama Canal in 1914. In 1919 British Columbia began exporting shipments of wheat from the western provinces, through the Panama Canal. By 1929 the elevator capacity at Vancouver was 10,000,000 bushels and a million bushels requiring three ships, and the ships numbering 240. Every vessel had to stay in port to get loaded, and is worth \$5,000 to Vancouver while docked there.

Mr. Denton spoke also of the lumber exporting, for which there are now overseas markets in South Africa, Australia, New Zealand, Japan and England. Salmon fishing is another great industry. There are fifty-two salmon canneries in British Columbia, and the province's share in the year's \$30,000,000 catch was \$20,000,000. Mining is another significant industry. The Sullivan Mine in the interior, with its vast deposits of lead and zinc, represents 10 per cent of the world's supply of lead and 9 per cent of zinc. Fruit is another rich resource.

**PRAIRIE PROBLEM**  
Turning to the prairie provinces, Mr. Denton dealt with the drought-stricken areas of southern Saskatchewan and the problem which it presented to the Dominion Government. He spoke of Ontario and Quebec, the manufacturing core of the country, where also the financial control is held, and said that he doubted the wisdom of such unequal division of manufacturing. The Maritimes are not in a good condition and find it difficult to hold their own.

"It will require some studying so that every part of Canada will share equally in the good we have," he concluded.

Miss Winnie Elliott, president of the Senior Club, moved the vote of thanks.

ments. Novelty candy baskets, surrounded by toy soldiers for the boys and Kewpie dolls for the girls, held place cards for the following children and their mothers: Mrs. David McKenzie, Mrs. Stuart D. Smith and Geraldine, Mrs. Hedley McDougall and Raymond, Mrs. Stanley Matthews and Margaret, Mrs. Wesley Strickland and Grant, Mrs. Harry Smith and Earl, Mrs. William Blair and Alan, Mrs. Geo. Edwards and Joan, Marie and Bill and Barbara Cruickshank.

Complimentary to Mr. and Mrs. Warner of Swift Current, Sask., who are visiting Victoria and guests of Mr. and Mrs. Galloway, 1250 Acton Street, a number of friends paid them a visit on Monday evening and spent a very happy time together. Much pleasure was given from the musical numbers played by F. Atchison, F. Hamilton, H. Seale, B. Duckworth, J. Duckworth and Mrs. Galloway. The evening was a delightful one, with many pretty and dainty. Those present were: Mr. and Mrs. Galloway, Mr. and Mrs. Sawyer, Mr. and Mrs. Overfall, Mr. and Mrs. Duckworth, Mr. and Mrs. H. Seale, Mrs. J. Dobbs, Mrs. Atchison, Mrs. McKinnon, Mrs. C. Gostiller, the Misses Isobel, Flo and Jean Atchison, Helen and Margaret McKinnon, Anne and Cathie Morris, Nora Overfall, Margaret Inrig and Alice Sawyer, Messrs. Frank Hamilton, Jack Vale, Bill Sawyer, Tom Sawyer, Norman Duckworth and Ben Duckworth.

## Chapter Gave \$800 to Assist Worthy Causes

Navy League I.O.D.E. Re-  
views Very Successful  
Year; Mrs. T. A. Johnston  
Re-elected Regent; Fine  
Reports

One of the most successful years in the chapter's history was recorded at the annual meeting of the Navy League Chapter I.O.D.E. held yesterday evening at the home of the regent, Mrs. T. A. Johnston, who was elected by acclamation to that office.

Other officers chosen were: First vice-regent, Mrs. A. D. Whittier; second vice-regent, Mrs. R. Shanks; secretary, Mrs. J. L. Ford; treasurer, Mrs. E. C. Weston; educational secretary, Mrs. Aubrey Kent; Echoes secretary, Mrs. J. W. Cashmore; standard-bearer, Mrs. Peacock. Mrs. Johnston, Mrs. Whittier and Mrs. Shanks were nominated as provincial councillors, and Mrs. Johnston as a national councillor.

RAISED \$1,289.96  
By its efforts the chapter raised the large sum of \$1,289.96, of which \$797.36 had been disbursed. The talent money scheme had proved a splendid source of revenue, and the regent to the member raising the largest amount of money under this plan. The talent fund had been augmented by \$102.30, the proceeds of a garden party at Mrs. Shanks' home, bridge parties at the homes of Mrs. Aubrey Kent and Mrs. Peacock, and a rummage sale.

Mrs. J. L. Ford, the secretary, in her comprehensive survey of the year's undertakings noted that the chapter had maintained its interest in its adopted school, the Boys' Central, to which a prize had been given for proper conduct in history and a junior Encyclopaedia Britannica had been added to the reference library. Ten calendars had been presented for the various classrooms. A calendar had also been sent to the school at Lively, B.C., and books to the high school students. Thirty-seven calendars of local interest, history and a junior Encyclopaedia Britannica had been added to the reference library. Ten calendars had been presented for the various classrooms. A calendar had also been sent to the school at Lively, B.C., and books to the high school students. Thirty-seven calendars of local interest, history and a junior Encyclopaedia Britannica had been added to the reference library.

At the monthly meeting, which preceded the reading of the annual reports, the members took the oath of allegiance to His Majesty King Edward VIII. Donations were voted to secondary education, the Rainbow Sea Cadets, Sea Scouts and soldiers' graves. Plans were completed for the bridge party to be held tomorrow evening at the Connaught Seamen's Institute.

**FLOWERS PRESENTED**  
In appreciation of her untiring work for the chapter during the past year, Mrs. A. D. Whittier presented the regent, Mrs. Johnston, with a beautiful fern. Mrs. Johnston then presented the talent fund prize to Mrs. Shanks, and plants were presented to Mrs. Cashmore, who is retiring after nine years as standard-bearer, and to Mrs. C. W. Plumb, who is retiring as second vice-president. Flowers were presented to Mrs. Wm. Ellis, Mrs. L. A. Genge and Mrs. McKicking and potted plants were sent to Mrs. H. P. Hodges, of the Times, and to Miss Bullock-Webster, of The Colonist.

After the meeting, Mrs. Johnston served refreshments, the table being beautifully arranged with a bowl of red tulips, blue iris and white freesias. Mrs. Wm. Ellis, municipal regent, Mrs. L. A. Genge and Mrs. R. B. McKicking were welcomed as special guests.

Mr. Dunning said that due to general economic conditions, little further could be done in restoring government employees' salaries to normal.

**P.E.O. Will Be  
Ball Hostesses**

Leap Year Dance at Empress  
Planned by Sisterhood

Friday evening, February 28, will be a gala evening for the gentlemen who attend the Leap Year ball of the P.E.O. Sisterhood at the Empress Hotel, according to advance information received through the committee in charge of arrangements. No effort will be spared to see that all guests long and pleasantly remember this ball, but special emphasis is being placed on courtesies for the male guests.

Mrs. Walter Laing, who is convening the committee, states that Len Acres' orchestra will provide music, and that a special programme containing many novelty features, in keeping with Leap Year, has been arranged. Assisting Mrs. Laing are Mrs. F. R. Scourrah, Mrs. H. S. Hurn, Mrs. E. C. Manning, Mrs. H. Hodgson, Mrs. E. Whyte and Mrs. W. C. Fyfe.

Bridge for those who do not dance is being arranged by Mrs. W. C. Fyfe, and reservations may be made by telephoning E 9129.

## COLLEGE GIRLS NOT SO PRETTY?

Noted Artist's Remark That Only Ugly Ones Go, Raises Furore

New York, Feb. 18.—James Montgomery Flagg, noted artist, generally considered the foremost judge of feminine beauty in America, has declared that beautiful girls are more likely to be found outside of colleges than in them.

While something of a furore was caused recently by a statement attributed to him, that "all the ugly girls go to college," Flagg developed all over the country. He was supposed to have made the remark when a "bad to judge campus beauties" at Syracuse University.

He has explained that he made the statement as a "flippant remark" in a letter to an old friend and that it should be amplified.

"Most girls find they are beautiful early in life," he pointed out. "Then he suggests that since they find they are beautiful they are quite likely to seek careers and not go to college."

"The average of college girls are attractive, not beautiful," he said, "and frequently I find groups of so-called college beauties that really haven't a beautiful girl in them."

In his studio, surrounded by oil paintings and sketches of America's most beautiful women, and thus impelled to set a very high standard for beauty, he felt he must be honest in judging girls. It is not a matter of sentiment; it is simply justice to art.

When he looked over the college girls in one group he immediately picked Miss Ruth Wenter of Wilmette, Ill., a sophomore at Northwestern University, as the only beauty, although he admitted some of the other girls were attractive.

## Mrs. Harold Gatty Seeks Divorce

Associated Press  
Los Angeles, Feb. 18.—Harold Gatty, around-the-world flier, and his wife, Mrs. Elsie Louise Gatty, whom he married in Sydney, Australia, have come to a parting of the ways.

Mrs. Gatty had on file in superior court today a divorce, based on charges of cruelty.

Gatty and the late Wiley Post flew around the world in eight and one-half days.

## GIRLS NEED AID BESIDES BOYS

Agnes Macphail Tells House in Urging Action Be Taken

Ottawa, Feb. 18.—Judging by debates in the House of Commons one would sometimes think "the whole population of Canada is composed of men," Miss Agnes Macphail (U.F.O.-Labor, Grey-Bruce) said in the House of Commons yesterday.

She was speaking of the need of providing some form of healthy activity for young people who had gone to high school and were unable to find jobs or go further with their education, Miss Macphail said.

Young women were in this plight as well as young men, she said. Canada could well study and adopt some of the means taken in the United States to deal with this problem under the National Youth administration.

## Lady Conan Doyle Is Gravely Ill

Crowborough, Sussex, Eng., Feb. 18.—Lady Conan Doyle, widow of the noted writer and spiritualist, was gravely ill last night following two major operations during the past week. Members of her family were at her bedside.

Her son, Adrian, said messages had been received from the late Sir Arthur Conan Doyle through a spiritist, giving encouragement and information regarding her illness, and that details of this spiritual diagnosis were subsequently confirmed through X-ray examinations.

## First United Y.P.S. Enjoy Social

A very delightful Valentine's social was held last night at the First United Young People's Society. The meeting was arranged and in charge of George Dickson, chairman of the social committee.

The evening opened with a short business session, Miss Francis Lockard being elected head of the citizenship committee. During the evening Mr. Bob Wormington sang two solos, "Red Sails in the Sunset" and "Boots and Saddles." These were warmly received by an enthusiastic audience. George Dickson and Company produced a rollicking skit, entitled "Skool Daze," much to the delight of the assemblage.

A very enjoyable evening was brought to a close with the serving of refreshments.

Next week's programme will be in charge of the Christian fellowship committee. All young people are invited.

Left, Mrs. Hazel Wolfkill of Seattle, with Mr. R. Spencer Peightel of Bremerton and Mrs. J. C. Baldwin, also of Seattle, who are participating in the Empress winter golf tournament at the Victoria Golf Club, are shown chatting in the sunshine before tackling the qualifying round yesterday.

## Woman Senator Not Matrimonial Agent

Ottawa, Feb. 18.—The fame of Canada's women members of Parliament is being breezed abroad. From Egypt comes a letter of request from a girl in search of a husband.

Beautifully written in a fine French hand on pale pink notepaper, the letter, addressed to Senator Cairine Wilson, takes seven pages to tell a pathetic story of a "pretty and in character charming" young person of twenty-five who wants to find "an Englishman from thirty to forty-five years old."

Senator Wilson wrote back she was unable to assist.

## APPEAL FOR CLEMENCY

Associated Press  
London, Feb. 18.—The Foreign Office yesterday announced the British embassy in Washington had been authorized to instruct the British consul-general in San Francisco to approach the Governor of California on the subject of an appeal for clemency for Alexander Mackay, robbery convict condemned to die February 28.

The Foreign Office declined to disclose the basis for the appeal. Mackay was born February 21, 1897, in Glasgow.

Mackay participated in a sensational San Quentin prison break a year ago in which Rudolph Straight, leader of the break, was killed.

## VALENTINE MOTIF AT JOLLY DANCE

Despite the cold weather the usual large crowd was in attendance at the old-time dance at Lake Hill on Saturday evening. The occasion was a St. Valentine's dance and the hall was suitably decorated with red and white streamers and large hearts.

Special prizes were given for the best costumes and were won by: Ladies, Mrs. Hause; gentlemen, C. Hastings. Another prize contest was the spot dance, won by Miss D. Holdcroft and Mr. A. E. Hornby. Much merriment ensued during the last dance when boxes of serpentine were distributed among the crowd.

Lucky tombola winners were: Ladies, Mrs. Goss, Mrs. Jones and Miss E. Jones; gentlemen, A. Clatworthy, J. Carmichael and J. Anderson.

Among the many dancing were: Mesdames E. Irvine, J. Farmer, H. Campbell, R. Gray, S. House, E. Keatley, C. Hudson, B. McCorquodale, A. Oakley, J. Goss, M. Jones, V. Kirkendale, E. Rume, H. Greene, T. Rogers, M. Anderson, J. Davis, M. Force, A. Hastings and T. W. Palmer.

Misses T. Curtis, N. Carmichael, Elsie Merriman, Irene Campbell, Margaret Roe, Margaret Leach, M. Carter, Nellie Morrison, Ellen Chislett, Jean Dempsey, Dolly Anderson, E. Ayres, Lil Robinson, Mary Simmons, Elsie Robinson, Alice Leach, Dorothy Lowe, Marjorie Watt, Doris Campbell, Pearl Palmer, Joan Leggett, Donna Holdcroft, Adeline Clatworthy, K. Carter, Pearl Speeding, Ellen Force, Sylvia Rogers, Mary Sparrowhawk, Nellie Rogers, Jenny Peruliet, Sadie Speeding, Kathleen Oakley, M. Morford, E. Passmore, Elsie Granberg, Miriam Barlow, Verna Richmond, Maud Kellogg, D. Reebies, Olive Kelly, Nancy Boyd, K. Sparrowhawk, Mae Jacobs, Gracie Fairburn, Dorothy Brooks, Nellie Crowther, Mabel Landell, Mabel Moore, P. Russell and D. Moore.

Messrs. Arthur Clatworthy, A. E. Hornby, James Allan, J. Gillespie, Charles Brown, T. Thomas, H. A. Curley, L. Silver, B. Landell, R. Gray, J. Down, Bill Wellings, G. Carter, M. Carter, L. Grier, R. Watt, Eddie Pearson, Howard Jakeman, A. Wilson, Lester Small, T. Kellington, J. Swan, J. Smirt, A. Simmons, Fred Simmons.

## PAIR IN MATRIMONIAL OPEN

The immaculately-groomed bridegroom on the right is William Lawson Little, the British and American amateur champion, more often seen in rough slacks and sweater of the golf course. Little donned the fine tuxedo for his marriage to the former Dorothy Hurd of Chicago, shown here with him after the wedding at the home of the bride.

## BATHTUB NEW BEAUTY PARLOR

Novel Demonstration Marks National Congress of Beauty Specialists in Seattle

Associated Press  
Seattle, Feb. 18.—"Beauty in the bathtub," or "every bathroom its own beauty parlor" is the slogan of one of the most novel demonstrations which greeted the nearly 3,000 beauty culturists at their annual national beauty congress here today.

It consists of pouring certain concoctions in the bathtub so that when milady climbs out she is already beautified and need not waste time applying oils, creams and greases as they have applied themselves while she soaked herself.

The beauty bath, like other novelties featuring the beauty congress "clinic," will not be public. A special wall will be installed in the lounge of one of Seattle's largest hotels and only accredited, serious minded delegates can gain admission.

Max Berliner, sponsor of the annual congress and past president of the National Beauty and Barber Supply Institute, said beauticians are registering from Alaska, western Canada, Montana, Idaho, Oregon, Washington, and northern California.

## The Truth About Diet

By DR. MORRIS FISHER  
By the time your baby is a year old, it will be taking a diet approximately as follows:

6 a.m.—Milk, 7 to 8 oz.  
10 a.m.—Cereal, 4 tablespoonfuls; milk, 7 to 8 oz., some of it on cereal; 1 cracker or piece of toast.  
2 p.m.—Vegetable or meat broth, 4 to 5 oz. or 1 egg, or scraped or chopped meat, 2 tablespoonfuls; white vegetable (potato, rice, etc.), 2 tablespoonfuls; green vegetable, 2 to 4 tablespoonfuls; milk, 5 to 6 oz. (or smaller amount if broth is given).  
6 p.m.—Cereal, 4 tablespoonfuls; milk, 7 to 8 oz., some of it on cereal; 1 cracker or piece of toast; cooked fruit, 1 or 2 tablespoonfuls.

In the second year, your child's diet should consist chiefly of milk, cereals, vegetables, fruit juices, or cooked fruit, some meat and some eggs. A suitable schedule for the two-year-old will be about as follows:

7 to 8 a.m.—Cooked cereal, 3 to 6 tablespoonfuls, with milk and a little sugar; milk, 6 to 8 oz.; dry bread, toast, zwieback or cracker, plain or lightly buttered.  
10 to 11 a.m.—Juice of an orange. (This may be given with one of the meals, instead.)  
12 to 1 p.m.—Meat broth, vegetable soup, ground meat or egg; white vegetable; potato, macaroni, spaghetti, rice or hominy; green vegetable; apple, banana, lettuce, spinach, peas, onions, carrots, squash, etc. (mashed or strained); cooked fruit or banana; dried bread, zwieback or toast, lightly buttered. A drink of milk or cracker may be given in the middle of the afternoon, provided this does not disturb the appetite at meal times.  
6 p.m.—Same as breakfast, with addition, soft-cooked egg, junket, custard or some simple dessert may be given. A white vegetable (see above) may be substituted for the cereal, and soup for the milk.

This list need not be followed absolutely. The child's appetite must be considered; likewise, the amount of energy that it puts out, the foods that it likes, and the other factors already mentioned.

TODAY'S HEALTH QUESTION  
Q.—I would appreciate information about headaches, their causes, etc.

A.—Headache is not a disease, but a symptom. It is merely a signal that something is wrong somewhere. Treating headache as such is always a mistake. First step must be to search for the cause. This can be done only by a physician through complete examination and, perhaps, additional study by laboratory methods. Some common causes of headache are: eyestrain, digestive disturbance (so-called biliousness), constipation, disease in the nose or the sinuses communicating with it, infections in various parts of the body (for example, the teeth), or acute infections like colds and influenza. Rarely there may be serious conditions, such as brain tumors. There is also a type of headache known as migraine, which is a condition in itself. Dosing a headache with drugs is worse than useless.

Lodge to Meet—Daughters of St. George Victoria Lodge No. 23 will hold their regular meeting in the S.O.E. Hall Wednesday evening at 7.30 o'clock. After a short meeting the members will hold a whist drive and dance.

Navy League Chapter Party—The Navy League Chapter, I.O.E., will hold a card party at the Connaught Seamen's Institute on Wednesday evening, at 8 o'clock, in aid of the institute's funds. Players are asked to bring their cards, etc.

## Do This to Ease Sore Throat Instantly

Relieve Soreness in Three Minutes This Easy Way

For quickest relief from sore throat you've ever known, follow directions above.

Relief will come almost instantly. For the "Aspirin" acts like a local anesthetic to ease throat pains; and at the same time soothes irritation and soothes throat.

Doctors endorse this treatment. For it provides a medication, and it DEMAND AND GET "ASPIRIN"

Your druggist is featuring Aspirin NOW because it relieves Pains FAST! SAFE!

Caughan's GROCERIA

## "TOPSY-TURVEY" BALL POPULAR

"Shop Early and Avoid the Rush" is the slogan just now of the members of the Major John Hebbden Gillespie Chapter I.O.E., with reference to their "Topsy-turvy" Leap Year dance at the Yacht Club on Friday, February 21.

The girls say there are not enough tickets to go around and they are anxious to see if there are enough men to go around. They know there is enough music to go "round and round."

Of course with the reverse order in vogue there will quite likely be a few "female stags" sauntering in. However, perhaps the girls who are taking their partners are wise to the upcoming influence of a stag invasion, as rumor says that stags are already being exchanged.

Others do not believe in booking ahead and are going to see how many dances their boy friends can collect by their own ingenuity. This places the husbands in a rather peculiar position when they have to supply money for the tickets and then "be taken" for their wives. They do not know whether to be glad or sorry. But Leap Year comes but once in four years, so perhaps they can stand the strain.

## SUPERFICIALITY MODERN CURSE

Lady Tweedsmuir Warns Women of Danger of Over-organization

Ottawa, Feb. 18.—In the opinion of Lady Tweedsmuir superficiality is "one of the curses of modern life."

The wife of the Governor-General, who has taken prominent part in women's organizations for several years, believes greater emphasis should be placed upon the danger of superficiality and over-organization.

She made her opinion known in an address to members of the Women's Association of St. James United Church last evening on the activities of the Women's Institutes in England and Wales.

"We do so many things, there is danger of getting a smattering of everything. To my mind superficiality is one of the curses of modern life, and sometimes I think we are in danger of over-organization," Her Excellency said. "If we can avoid the stupidity of quarrelling amongst ourselves, red tape and the making of too many rules, I think we have a great future before us. We are a steady influence because we have our roots in the past, our mind and hands working in the present and our eyes looking clearly into the future."

Early in her address Lady Tweedsmuir told her audience that "I think Canada is a land of welcome, you do them so well."

## WOULD LEGALIZE STERILIZATION

Canadian Press  
Toronto, Feb. 18.—Legalized sterilization for certain classes in Canada was called for yesterday by the Eugenic Society of Canada.

"Such legislation," the resolution states, "should aim primarily to prevent parenthood among those cases whose presence in our communities constitutes such a social menace and such an economic burden upon the taxpayers."

The legislation, it was urged, should be drafted along lines of present Alberta laws.

The society believed proper medical, religious and legal safeguards should be provided under the Dominion-wide law it proposed.

DIETITIANS agree that the water in which vegetables have been cooked is full of healthful nutrient. Just add OXO to that hot vegetable water and you have a delicious soup INSTANTLY. No cooking... no boiling... no fuss.

## Stanford Ruggers Scheduled To Play Here On April 1

### THE SPORTS MIRROR

NO MATTER how it is regarded, the play-off system for the Olympic ice hockey championship looks cockeyed. At present, England rules the roost, placed on top by Canada's victory over the United States. Just once, in the entire series, did the Canadians falter. They slipped before the English team and lost 2 to 1. By virtue of that victory and the fact the Canucks beat the United States and all other teams they met, the Englishmen, with six Canadian-trained performers on their Canadian-coached roster, hold the championship.

Canada's hockey strength is such that any criticism over the play-off series cannot be construed as an insult except in the eyes of the most biased against the Maple Leafs.

According to Albert Podas, coach of the Canadian team, the Dominion representatives went through the entire series of round-robin and finals to score a point total of fourteen on games won. The English, with a pair of draws and one game less than the Canucks, finished with twelve points. And yet Canada lost, owing to the fact that England carried its semi-final win over the Maple Leafs into the final.

In the light of local adherence to British tradition in sports, the play-offs must seem rather odd to Victorians. Whenever games of English origin, cricket or rugby, are played here, the Victorians adhere strictly to the British rules. It must strike rather forcibly those who are against any Canadian innovations in British games that Canada should be forced to follow an alien play-off system, by no means orthodox, in its own sport.

If any doubts remained in the minds of those organizations which have made sporadic efforts to create an ice rink here over the desirability of such an arena, they must have been dispelled during the last two or three days. The numbers of skaters, good, bad and indifferent who thronged to lakes, ponds and inlets to enjoy a brief interlude at that popular sport is evidence enough of the hold skating and hockey has on Victoria. The multitude of skaters is all the more remarkable in view of the fact that the city has not been able to foster youngsters on artificial ice and at least some of those who used to enjoy the arena would most have passed beyond the active lists.

It is a peculiar thing how ice arena plans burst forth into near frenzy when organizations feel the urge for an objective to gain popular interest. Time and time again preliminary action has been taken to create a new rink and just as often the efforts have died away.

An arena with an ice surface is only one of the city's sporting needs. With provincial basketball play-offs in the offing an ordinary sports auditorium appears to be a major requisite here. The House of David exhibitions against the Dominions drew very full houses to the High School, but that location, although probably the best available in Victoria without major structural activity, was woefully inadequate to cope with the crowds which wished to see the games but did not like to take the chance of having to stand up for a couple of hours.

Just last week efforts to bring the Vines-Schoen tennis troupe here fell through owing to the fact there was not suitable auditorium in which to stage the exhibitions. Many other features might be brought to Victoria if accommodation were available for them.

At the last Canadian basketball championship finals at the Willows a hint was given, and a broad hint it was, that the Tourist Trade Development Association would build a sports auditorium. But we haven't even seen the plans of it yet.

### W.A.C. GIRLS LOWER MARK

Seattle, Feb. 18. — A new United States swimming record for the women's 200-yard relay was established here yesterday evening by the Washington Athletic Club team. It covered the distance in 1 minute 54.4-10 seconds, lowering the old mark by 8.10 of a second.

A.A.U. officials timed the race which was swum by Mary Lou Petty, Betty Lea, Doris Buckley and Olive McKean, against a team of juniors. The former recognized record of 1 minute 58.10 seconds was established at Detroit in 1935 by the same team.

### Plans Laid For Three-game Tour Of B.C. Shortly

Negotiations Proceeding With New Zealand For Visit By Canadians

### Japanese Invited Here Next Autumn

As frozen grounds removed from Victoria's rugby leaders the worries of arranging local league fixtures, the oval ball leaders turned to broader fields today.

H. J. Ketchen, secretary of the British Columbia Union and president of the Canadian body, announced the visit of a Stanford University team, including Bobby Grayson, All-American fullback and eight other American football stars and former track stars, was virtually a certainty.

The Californians are due to leave Palo Alto on March 22 and arrive in Vancouver on March 24. They are listed to play the first of two mainland games on March 25 and the second on March 28. One of the games will be for the World Cup, the trophy of the combined Stanford and University of California team took from the University of British Columbia on the southern visit here in 1935.

They will come across to Victoria for a Wednesday afternoon exhibition against the local reps on April 1 before starting home again.

Final financial arrangements will be made for the tour at a special meeting of the British Columbia Rugby Union in Vancouver on Saturday.

Jim Wylie, former New Zealand and Stanford English rugby coach, expects to have a squad which will include, in addition to Grayson, Joe Vigna and Johnny Reiserer as well as five former Stanford track stars. The visit, it is hoped, will lead to a regular series of tours between the Californians and British Columbia players. Following the last appearance of the sunshine state team here in 1935, the province sent a representative side south in 1934.

GOING FURTHER AWAY FROM HOME. Mr. Ketchen announced today he had written to New Zealand for terms and conditions under which the New Zealanders would consider a tour of their islands by a Canadian team.

Negotiations were also under way. Mr. Ketchen said, for a visit to British Columbia by a Japanese team next fall. The tour of the Nipponese

### Rookie Sorrows Over Habitants

Young Colville, now making his jolting checks and hard shots felt along the right wing of New York Rangers of the National League, has idolized Montreal Canadiens since skating and banging a puck home from school back in Edmonton a decade ago.

At that time Canadiens were the real threat to all comers and well earned their sobriquet of "Flying Frenchmen." There was the great Howie Morehead speeding down the centre, flanked by the incomparable stickhandler Aurel Joliat on one wing and Johnny Gagne on the other.

Then too there was flashy defenseman Sylvis Mantha, George Hainsworth in goal and "Pit" Lepine among the classy reserves. OTHERS GOING. Colville was dropped into the pit of melancholy when he heard the latest reports from the Canadian camp: "Waivers asked on Lepine and Mantha" among others. "Isn't that life," mourned Colville. "Just think of Lepine at his best, what a player, even then he was overshadowed by Morena. Pete holds the

### "Y" WILL MEET PACIFIC CLUB

Swimming Groups to Clash in Friendly Gala Tomorrow Evening

Each team having chalked up a win and a tie to date in the series of friendly swimming galas, Frank Hyslop's Pacific Club swimmers and Archie McKinnon's flying "Y" aquatic artists will meet again tomorrow evening in a friendly meet at the Y.M.C.A. The meet will decide supremacy between the two clubs. The gala will be scored on the 5-3-1-point basis with six points and nothing for the relay.

The list of events follows:

100 yards—Women's relay, freestyle, 4:30.  
40 yards—Boys junior backstroke, under seventeenth birthday.  
40 yards—Girls' junior backstroke, under seventeenth birthday.  
60 yards—Freestyle, men.  
60 yards—Freestyle, women.  
60 yards—Boys' freestyle, under seventeenth birthday.  
60 yards—Girls' freestyle, under seventeenth birthday.  
40 yards—Girls under twelfth birthday.  
60 yards—Backstroke, men.  
60 yards—Backstroke, women.  
40 yards—Boys' junior breaststroke, under seventeenth birthday.  
40 yards—Girls' junior breaststroke, under seventeenth birthday.  
200 yards—Freestyle, women.  
200 yards—Freestyle, men.  
60 yards—Backstroke, men.  
60 yards—Breaststroke, women.  
40 yards—Boys under fourteenth birthday.  
40 yards—Girls under fourteenth birthday.  
40 yards—Boys under twelfth birthday.  
120 yards—Women's medley relay, 3:30.  
120 yards—Men's medley relay, 3:30.  
team was considered a virtual certainty for next season.

On the local front the Victoria union drafted plans for the Cowichan Cup series, knockout play between teams on the island. In the first round, Duncan will meet Nanaimo. The winner of the up-island game will enter the second round against the Fifth Brigade, while the Bays-Wanderers play the Canadian Scottish to decide which outfit will advance against the victor in the up-island-guerrilla clash. The trophy is at present held by the Fifth Brigade.

SPORTSMAN DIES. Quebec, Feb. 18 (Canadian Press).—J. D. McElhenny, thirty-six, wealthy Philadelphia sportsman, died in hospital here yesterday evening of pneumonia. A dog-sleigh racing enthusiast, he came here two months ago to prepare two teams for the International Dog Derby to be staged at the end of this week.

### STRANGE AS IT SEEMS

Strange as it seems, Alexander Hamilton got his start toward a secure place in history as one of early America's greatest statesmen because a terrible hurricane swept over the Virgin Islands. Young Hamilton was an obscure clerk in a counting house on the island of St. Croix when, in 1772, the storm struck. He wrote a long and detailed account of the hurricane and sent it to friends in the Colonies. This remarkable description attracted attention to the young man. Because of it he was given an opportunity to move to America to complete his education. He came to America and grew to be one of the most important statesmen of the United States in its younger days. Coming to the Colonies from St. Croix he studied in a grammar school at Elizabethtown, N.J., later attending King's College, now Columbia University. He served in the Continental Congress and was one of the leaders of the move to adopt the new Constitution. After Washington took office, Hamilton was the first secretary of the treasury. In this office he made his great contribution to this country by starting it on a sound financial basis. Specially built tires for automobile racing are made for one specific purpose—a fast car. Ease of riding is a feature that is not necessary. Furthermore, the designers of racing tires know the conditions under which these tires will be used. Tires for a pleasure car must be built for easy riding, and to meet unknown and varying conditions of heat and cold, wet and dry—and they have a thicker tread by half an inch than the tires on a racing car, which are of much harder rubber. Weight, too, is an important factor in racing tires but an unimportant one in pleasure car tires.

### Seattle Golfers Score Wide Sweep

Capture Medal, Low Gross, Interdistrict and Interclub Honors as Empress Tourney Starts; Victorian Leads Women Qualifiers

Seattle made it a field day as the Empress winter golf tournament got under way at the Victoria Golf Club's Oak Bay Links yesterday. E. L. Howard, veteran senior, took medalist honors in the men's handicap play with a score of 84-16-68, Albert Scotty Campbell led low gross players with 77. Seattle won the interdistrict team competition for the Matsun Cup with a total two points under Victoria and the Broadmoor Club of Seattle captured the Interclub honors with Victoria second and Cedarwood third.

Mrs. A. S. G. Musgrave, Victoria, led the women qualifiers in the fair score handicap lists with 101-21-80 to best out another Seattle entry, Mrs. D. B. Morgan, who finished with a score of 103-24-81. Miss Mary MacKenzie-Grieve, another local player turned in the best gross, a 74, which her 10 handicap cut to a net 84 to give her third place in that division. Scores in individual and team matches follow:

At the Athletic Park James Bay Wanderers are pulled to meet Spencer. Dave McMillan will handle the whistle. Line-up follows: James Bay Wanderers—Sadler, Thame, Eastwood, Bourne, Magee, Belford, Ball, Anderson, T. Belford, Fitchlow, White, Davidson, Speller and Rostamp. WIN REPLAY. Liverpool, Feb. 18 (Canadian Press).—Liverpool Stanley defeated Action and Willeston, 2-0, in a replayed first-round game for the English Rugby League Cup here today.

### U.S. Olympic Head Attacks England

### PLAN WESTERN GRID SERIES

Winnipeg, Roughriders and Calgary Bronks Arranging Schedule

Canadian Press. Winnipeg, Feb. 18.—Operations of a western senior rugby football conference with teams operating at Winnipeg, Regina and Calgary loomed as a possibility today.

A tentative schedule proposed at a meeting of Manitoba, Saskatchewan and Alberta officials over the week-end is subject to approval and decision of Bronks' club officials is expected this week.

The playing schedule proposed provides for a series of twelve games, four each between Winnipeg, 1935 Dominion title, Regina Roughriders and Calgary Bronks.

### BUXTON TO FIGHT ON MILLER CARD

Seattle, Feb. 18.—Freddie Miller's reputation of invariably winning returns bouts with fighters who defeated him in non-title affairs made the Cincinnati, O., N.B.A. featherweight champion a favorite over Johnny Pena, Chicago Portuguese challenger, in their twelve-round title event tonight.

Both contestants wound up training slightly under the 126-pound weight limit. Pena defeated Miller in a recent non-title bout at Oakland, Calif.

Other bouts on tonight's card include: Billy Buxton, Victoria, B.C., vs. Young Listo, Manila, featherweights, (4).

### M'AVOY SCORES EASY KNOCKOUT

Associated Press. New York, Feb. 18.—Jock McAvoy, British middleweight and light-heavyweight champion, scored an easy knockout over Jim Smith of Philadelphia in the second round of their scheduled ten-round bout here yesterday evening.

The weights were 171 for McAvoy and 159½ for Smith.

PLAY TO DRAW. Kingston, Jamaica, Feb. 18.—Guarding their wickets stubbornly all day, a Yorkshire County cricket team held a draw here yesterday.

The weights were 171 for McAvoy and 159½ for Smith.

### Gustavus T. Kirby Decries British "Lack of Sportsmanship" in Using Canadian-trained Hockey Players

Associated Press. New York, Feb. 18.—Gustavus T. Kirby, treasurer of the United States Olympic Committee, returned from the scene of the Winter Games at Garmisch-Partenkirchen yesterday to deliver sharp criticism of England's "lack of sportsmanship" in using Canadian-trained hockey players to capture the Olympic title.

The hockey controversy at the Olympic Games, Kirby declared, grew out of elaborate recruiting of Canadian amateur players by England as well as other European countries.

"The amateur sport of hockey, as I see it, is threatened," Kirby charged. "Nobody can convince me that all these Canadian boys went to Europe to play hockey by coincidence."

"The English played Canadian stars on their team on the theory that they were born in England and 'once an Englishman, always an Englishman.' If they are going to do that, why not do the same in other sports, and drag in Australians and Canadians for their Davis Cup team?"

These six players, born in the Old Country but raised in Canada, played on the title-winning hockey team: James Foster, Alex Archer, Ed Brechley, Gerald John Davey, Archie Stinchcombe and James Chappell.

Kirby added that while he was not levelling criticism at United States amateur hockey, he feels "it is not like Caesar's wife."

The Canadians, Kirby said, "backed and filled" on the issue arising from England's determination to play James Foster and Alex Archer, two Winnipeg players under suspension for breach of the Canadian Amateur Hockey Association transfer rule.

Kirby praised Germany's handling of the winter games as "perfect."

EARLY ASSURANCE. Canadian Press. Toronto, Feb. 18.—Canadian amateur hockey authorities were advised as early as last November a Canadian team entered in the Olympic Games would not have to play against Canadian players resident in Europe, it was learned today.

George S. Dudley of Midland, president of the Ontario Hockey Association, said a cablegram was sent from Toronto at that time to the British Ice Hockey Federation. The reply stated Canada would not have to play against Canadian players, he said.

### RUSSIAN GIRL CLAIMS RECORD

Associated Press. Moscow, Feb. 18.—Maria Sokolova claimed a world's record for the 100-meter breast stroke yesterday, swimming the distance in 1 minute 23 seconds. The listed world record of 1:24.6 was made by C. Dennis of Australia three years ago.

### Northwest Hockey Games Are Drawn

Canadian Press. The first four teams in the Northwest Hockey League had each moved up one point in the standings today, remaining the same in relation to each other but leaving the Yale Calgary Tigers still deeper in the mire of last place.

At Vancouver the league-leading Seattle Seawhaws staved off a third period rally by the Lions sufficiently to take out a 4 to 4 overtime tie while from Edmonton came echoes of a rough battle through which the Eskimos managed to hold off the savage attacks of the Portland Buckaroos and emerge with a 1 to 1 overtime tie.

PALM OPENED. Lude Palm opened the scoring for the Lions in the Vancouver struggle on a lone effort for the only goal of the first period but the Hawks came to life in the second session.

Bill Githoley, older brother of the Lions' defenceman, inaugurated his first game with the Hawks with his first goal in professional hockey, taking a pass from Johnny Sheppard, and Sammy MacAdam added the other on a pass from Harold Tabor.

Starting the last frame one goal down, the Lions took things into their own hands and got results for a while. Bill Githoley, the Leo's recently acquired wingman, rattled in a pass from Palm at the start of the

period and Brian Hextall put the Lions one up on a lone effort a few minutes later.

The Hawks retaliated quickly, however, and once more took the lead when Louis LaFrance banged in Sheppard's pass after MacAdam had scored on a lone effort.

FIVE-MAN ATTACK. With two minutes to go, Guy Patrick, Lion manager, pulled off his defence and played five forwards up. Just twenty-eight seconds from the end the reward came when Palm shot the rubber to Clint Smith, who in turn gave Githoley possession. Githoley made no mistake, picking a spot between the Hawk defenceman and the post for the tying marker.

The overtime was cautious and scoreless. Goals were the only things that were scarce at the Edmonton tussle, fights being frequent and the blows many.

Portland took the lone tally of the first period when Rusty Hemmerling banged in Ronny Sutherland's pass, but Ronny Martin knocked the count for the Esks on a pass from Art Townsend in the second session.

Striving to break the tie in the third period tempers which had been on edge suddenly gave way. Nap Carriere clashed with Jack Pratt. Portland's forward, both being finally separated and given five minutes each. Carriere had previously drawn a penalty in the first session with Townsend, who was also sent to the box in the second period.

## Sweeney Schriner Effective Workman

Little Brilliance Shown By Scoring Leader in Compiling Points; Three Games on N.H.L. Card Tonight

David (Sweeney) Schriner of Calgary, sophomore sniper who brought a level head and no color whatever to the National Hockey League, stands today to win the scoring championship in his second big league season. In addition he seems the natural successor to Frank Boucher as the N.H.L.'s ranking gentleman.

Working quietly along his left wing, seldom bringing the crowds up cheering with any show of individual brilliance, Schriner has compiled fourteen goals and nineteen assists for a total of thirty-three points that puts him well ahead of all other point-collectors in the N.H.L.

When Americans square off tonight at New York against Montreal Maroons, Schriner will have a chance to consolidate his position. New York fans have not decided yet whether Sweeney is "great" or not, but they know his shots are deadly accurate.

Chicago Black Hawks will meet Montreal Canadiens and Detroit Red Wings visit the Bruins in Boston in other games tonight.

## MAZATLAN HAS DAY'S SHUTDOWN

Mexico City, Feb. 18.—All business in the west coast city of Mazatlan halted today as labor organizations demanded resignation of the municipal council.

The twenty-four-hour shutdown in industrial and commercial activities was called a protest against the killing of five strikers recently by police. Labor unions charged the municipal officials ordered police to open fire on the workers.

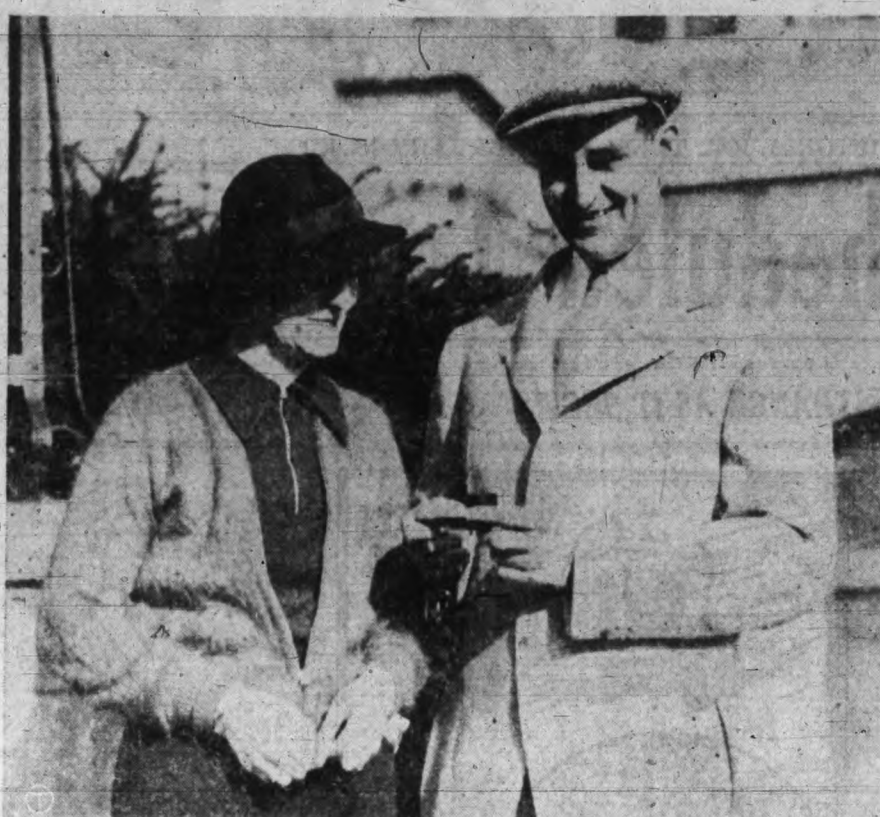

Federal troops patrolled the streets and guarded the city hall against the possibility of an attack.

## TRIAL BY FIRE TESTS THEIR METTLE

USE of a special electric furnace to test for carbon content is one important step in the complete chemical analysis of every batch of Gillette blade steel. Only the finest steel is accepted—flawless metal to produce flawless blades. Try Blue Gillette blades. Your dealer has them.

BLUE GILLETTE BLADES NOW 5 FOR 25¢—10 FOR 50¢

## Seattle Golf Players Here For Tourney

Mrs. J. C. Baldwin, Seattle, and Ralph Whaley, long drivers of Seattle are shown in the above picture, chatting before they started out in yesterday's opening play in the Empire Hotel winter golf tournament. Whaley toured the eighteen holes in 83 reduced to a net 80 by his handicap of 3. Mrs. Baldwin went around in 105-7-98.

## PROVIDE MUSIC FOR SKATERS

Public Address System Furnishes Dance Tunes; Skating Good Everywhere

With the temperature gradually rising on the lower mainland and island, the outlook for continued good skating is none too promising. All day yesterday and last night, however, those who were able, again brought into use their skates, traveled to various sheets of ice which were covered practically all lakes and ponds in the surrounding district.

Last evening, through the courtesy of Ross Hocking a public address system, which relayed music to the skaters, operated. Tonight, floodlights will be operated in addition to the music. The ice at the inlet is still in fairly good condition and skateable.

Three of the smoothest spots for skating are Langford Lake, Glen Lake and Florence Lake, quite close together near the Island Highway. These lakes are as smooth as glass and the ice is black.

Elk Lake is still keeping up its stubborn attitude and refuses to let ice form on its surface. This morning there was just about fifteen feet of ice around the edge. It is thin and will not hold the weight of a skater.

Goodacre Lake at Beacon Hill Park was scraped yesterday evening and today. Plans were made yesterday evening to flood it, but when it appeared the temperature would not go low enough to freeze the water was not turned on.

Thetis Lake, which is situated in the woods to the right-hand side of the Island Highway, just past the six-mile post is reported to be good. Spectacle Lake on the Malahat, which was the first spot around Victoria to have a sheet of ice, is still good.

Other spots are Swan Lake, Lost Lake, Panama Flats and Quilch's pond.

## BEER PRICE CRITICIZED

C. E. Whitney-Griffiths Voices Objections at Esquimalt Meeting

Price and quality of beer in British Columbia were criticized by Charles E. Whitney-Griffiths, speaking before the Esquimalt Liberal Association yesterday evening.

While he was a teetotaler, Mr. Griffiths said, he thought conditions should be remedied. Esquimalt, he added, showed its gallantry to women by providing places where they might have a glass of beer in comfort, but Victoria neglected the women and only had clubs where men alone were allowed to drink the beverage.

Urging members of the association to interest themselves in matters of public welfare, he said he would like to see Vancouver Island Liberals organize a powerful association to fight for island rights.

He said the Dominion Government should establish an air base on the coast, should increase fortifications of Esquimalt and provide dry-dockage for vessels under repair.

J. F. Mesher presided at the meeting. A committee was appointed to investigate a proposal to establish a new brewery on Head Street, support for which was asked of the association.

## MARKET NOTES

Wholesalers were busy today moving tons of fruits and vegetables from the dock to storage rooms in the warehouses.

Today's shipments included: One carload of bananas from Central America.

One carload of oranges from California.

One carload of grapefruits and lemons from California.

Part carload of mixed vegetables from California, including bunch carrots, cauliflower and spinach.

A large shipment of hothouse rhubarb from the lower mainland.

Prices on larger-size oranges are higher today due to the crop in California running mainly to medium and small sizes.

## NEWS IN BRIEF

The C.C.F. Unemployed Council will meet in the Parish Hall Esquimalt, this evening, at 8 o'clock.

Ward One Liberal Association will hold a card party Thursday evening in the clubrooms of the Victoria West Liberal Social Club, at 8 o'clock.

The monthly general meeting of Naval Veterans' branch No. 12, of the Canadian Legion, will be held in the clubrooms, Friday evening at 8 o'clock.

The Esquimalt Ratepayers' Association will hold a special meeting in St. Paul's Parish Hall tomorrow evening at 8 o'clock. All members are requested to attend.

The Twentieth Century Liberal Club of South Saanich will hold a meeting tomorrow evening at 8 o'clock. All members are especially requested to attend.

The weekly card party of the Victoria West Liberal Social Club will be held this evening in the clubrooms, 414 Skinner Street. The usual prizes will be given and refreshments served. All Liberals and friends are invited to attend.

Kreges Football and Basketball Club will hold a dance this evening in the C.C.F. Hall, Fort Street. Drawings will be held and refreshments served. A price's orchestra will supply the music. Dancing will be from 9 to 1 o'clock.

The annual meeting of the Friendly Help Welfare Association will be held on Thursday evening at 8 o'clock at the headquarters, 1224 Pandora Avenue. F. C. Boyes, principal of the Boys' Industrial School, will be the guest speaker. His subject to be "Delinquency in Relation to the Home."

Judge Luppman, at conclusion of the trial today reserved judgment in the action of A. A. Meharey and Co., against Ross M. Reid of Johnston Island, near Sidney. The suit was based on a misunderstanding over liability for payment of the cost of automobile insurance. C. H. Tait, counsel for the firm, argued it had not been paid, while R. C. Lowe, counsel for Mrs. Reid, argued there had been a credit set-off in other accounts with the firm cancelling the charge.

Adolf Bracht was charged in the Provincial Police Court yesterday with forming a conspiracy to defraud the Motor Vehicle Act, after an accident on the Island Highway on January 25. The informant was Roy Tucker, who was the driver of the other car involved, and who alleged the accused had supplied him with his name and address and driver's license particulars. Gordon Cameron appeared for the defence and said his client had not intended to commit any breach of the law. He said the whole thing had been a mix-up. Judgment was reserved until next Wednesday.

Payments from the city relief office for rent are insufficient to meet the taxes the city charges on the property at 913 View Street, W. H. M. Haldane, owner, told Judge Luppman today in an action to have the relief tenant give up the possession of the property. "It is scarcely fair that the burden should be placed on the landlord," Mr. Haldane said. He pointed out that city relief officials make no provision for any man and family until they actually find a place of shelter. The judge ordered the relief tenant vacate the property on March 2.

The Esquimalt Council will do all in its power to obtain for the interested parties a license to operate a brewery on Head Street.

A motion to this effect, made at last night's session by Councillor Frederick G. Eaton, and seconded by Councillor Clarence L. Pullen, was supported by three votes to two. Councillors Thomas Macdonald, Eaton and Pullen outvoted Councillors Albert Heald and David A. Henry. Councillor T. Harry Hodgson, as one of the parties concerned, did not vote.

If the license were granted, said Councillor Eaton, new revenue would be brought in, the municipality would be compensated for the removal of the provincial grant out of beer parlor license fees.

The people in the district concerned, he said, had no objections to the proposal.

Jack Frost has played a queer trick down at wholesale row today.

He has planted upside-down icicles on the window outside the banana store room.

These queer stalagmites of ice are two inches thick and stand a foot tall. There are three or four of them ranged along the window sill. It is believed that dripping water has caused them, much in the same way as dripping water from the ceiling of cavernous caves cause stalagmites.

## Navy Barracks Contract Let

Knott and Jones Awarded Construction of Office Building at Esquimalt

Contract for the construction of the new office building at the Canadian Naval Barracks, Esquimalt, was today let to Knott & Jones, contractors, of this city. The contract price is \$26,000.

Affidavit of the awarding of the contract was made this afternoon in telegrams from Ottawa received by Fred Dawson, resident architect of the Department of Public Works, and by the firm awarded the contract. Plans have been completed and work is to start at once.

In January the contract for the construction of the new drill hall at the Naval Barracks was awarded to Knott & Jones, at a figure slightly under \$50,000.

## NEW BREWERY IS PROPOSED

Interests Seeking License For Esquimalt Plant; Not Favored By Government

A move is under way to establish an independent brewery in the old Phoenix plant at the corner of Donnam's and Head Streets, it became known yesterday evening when both the Esquimalt Council and the Esquimalt Liberal Association were asked to support an application for a beer license.

The Esquimalt Council went on record supporting the move to put another industry in the municipality. The Liberal Association named a committee consisting of A. C. Haltham, G. Wise and John Rogers to investigate and report back.

While the interests behind the project were not revealed, Councillor T. Harry Hodgson refrained from entering the discussion at the Esquimalt Council, saying he was an interested party.

Other sources said a \$150,000 company would be formed to take over the old plant and operate it. Richard Ulrich, Seattle, had been engaged as architect to put the plant in shape.

The company will not be incorporated, it was explained, until assurance has been given that a license will be granted.

Application for a license must be made to the Dominion Government, but British Columbia authorities will be consulted as a matter of course. The brewery interests are now moving to securing the support of the province, it was said.

For authoritative sources, it was learned the British Columbia authorities are not anxious to see another brewery license granted at the present time. Out of seventy-three brewery licenses in Canada now, British Columbia has eleven. Ten of the breweries are operating and producing 3,500,000 gallons of beer a year.

The Esquimalt Council will do all in its power to obtain for the interested parties a license to operate a brewery on Head Street.

A motion to this effect, made at last night's session by Councillor Frederick G. Eaton, and seconded by Councillor Clarence L. Pullen, was supported by three votes to two. Councillors Thomas Macdonald, Eaton and Pullen outvoted Councillors Albert Heald and David A. Henry. Councillor T. Harry Hodgson, as one of the parties concerned, did not vote.

If the license were granted, said Councillor Eaton, new revenue would be brought in, the municipality would be compensated for the removal of the provincial grant out of beer parlor license fees.

The people in the district concerned, he said, had no objections to the proposal.

## Obituary

ALFRED GEORGE NEEDHAM

Funeral services for Alfred George Needham, who was found dead in his cabin, 840 Johnson Street, on Saturday, aged eighty-one years, will be held tomorrow afternoon at 4 o'clock at the Sands Mortuary Chapel. Interment will be in Colwood Burial Park.

The deceased was born in India and came to Canada more than sixty-five years ago. For twenty years he had been a resident of Victoria. Mr. Needham joined the Royal Northwest Mounted Police shortly after its inception and served with that organization for three years. In 1875, he joined "A" Battery, R.C.A., and served three years with that unit. Later he served eight years with 11th Brigade, R.F.A., and following that was for three years with the 13th Battalion at Hamilton, Ont. During the Great War, at the age of sixty-one, he enlisted with the 102nd R.M.R. He is survived by a daughter in Canada, and one brother, in England.

When the judge expressed surprise, Mr. Manzer said for the court rules which supported his contention that a married woman could not act as guardian of an infant for the purpose of litigation.

"Surely, the women's organizations can't know about such a state of affairs," said the judge.

Mr. Manzer explained the rule had come down from the Chancery Division, where it had been established as not the practice to allow a married woman to act as the next friend or guardian ad litem. This detail of the law had never been changed, in line with the general emancipation of women.

The point came up today in the action of Aubrey Karagianis against Alice M. Robertson and her infant son, Douglas, in which she was named as guardian for the purpose of litigation.

Mr. Manzer asserted that F. N. D. Robertson, as the lawful husband of Mrs. Robertson and the natural father of her son, was the fit and proper person to act as infant guardian.

When it was made known that the father consented to act as guardian in place of the mother named in the papers, the judge indicated his approval of the change.

When it was made known that the father consented to act as guardian in place of the mother named in the papers, the judge indicated his approval of the change.

## Women Not 'Equal' Yet As Guardians

Counsel Draws Court's Attention to Old Law; Father to Be Guardian

Women may have gained many rights during the last few years, but they have not yet been constituted by law as the equals of men when it comes to the guardianship of children.

Roy Manzer, counsel, brought out this fact today before Judge Lampman.

When the judge expressed surprise, Mr. Manzer said for the court rules which supported his contention that a married woman could not act as guardian of an infant for the purpose of litigation.

"Surely, the women's organizations can't know about such a state of affairs," said the judge.

Mr. Manzer explained the rule had come down from the Chancery Division, where it had been established as not the practice to allow a married woman to act as the next friend or guardian ad litem. This detail of the law had never been changed, in line with the general emancipation of women.

The point came up today in the action of Aubrey Karagianis against Alice M. Robertson and her infant son, Douglas, in which she was named as guardian for the purpose of litigation.

Mr. Manzer asserted that F. N. D. Robertson, as the lawful husband of Mrs. Robertson and the natural father of her son, was the fit and proper person to act as infant guardian.

## STECK DUO-ART REPRODUCING BABY GRAND

Cost New, \$2,950 To Client

**\$950**

There is a home somewhere in Victoria where this glorious piano will be received with every enthusiasm. It is a home where piano music is loved because every one of the family takes a pleasure in playing, or perhaps it is a home where there are children who are new learning to play. In either case, the piano to choose is this superlative instrument, which can be played as an ordinary piano or as a magnificent player-piano. It can be bought now at two thousand dollars less than its former price.

**Sooke People Support Traps**

Meeting Called For Tonight To Discuss Report They Will Be Banned

A protest meeting of Sooke residents to consider the reported proposal of the Dominion Government to refuse salmon trap-net licenses at Sooke next year has been called for this evening at the Community Hall.

Sooke residents felt the refusal of the trap license would be followed by the closing down of the cannery and consequent loss of employment.

Alan Chambers will address the meeting.

## Victoria Daily Times

MEMBER ADVERTISING BUREAU CIRCULATION

8 a.m. to 5 p.m.—Circulation  
Advertising E4175  
E4176

**CLASSIFIED ADVERTISING RATES**  
14c per word per insertion.  
Minimum charge, 25c.  
\$1.25 per line per month.  
Minimum charge, \$2.50.

Births, \$1.00 per insertion.  
Marriages, \$1.50 per insertion.  
Deaths, \$1.50 first insertion, and \$1.00 succeeding insertions.  
Funeral notices, in Memoriam notices and Card of Thanks, \$1.50 per insertion.

In computing the number of words in an advertisement count five words for the first two lines and seven words for each line thereafter. This is not an absolute guide to the number of lines, must depend on the length of the individual words.

The Times will not be responsible for more than one insertion of any advertisement ordered for more than one issue. Any claim for rebate on account of errors or omissions must be made within thirty days from the date of the same, otherwise the claim will not be allowed.

Advertisers who desire it may have replies addressed to a box at the Times Office and forwarded to their private address. A charge of 10c is made for this service.

Subscribers wishing their addresses changed should notify this office as well as the carrier. If you are moving, please phone E4175 before 8 a.m. and a copy will be sent by special messenger.

**INDEX TO CLASSIFIED ADS.**  
The eight major groups of classifications appear in the following order:  
1. Employment  
2. For Sale—Wanted  
3. Real Estate  
4. Automobiles  
5. Musical Instruments  
6. Miscellaneous  
7. Business Opportunities  
8. Financial Institutions

**BOX REPLY AVAILABLE**  
Letters addressed to the following boxes are available at the Times Office for the attention of box letters. Maximum replies are obtained by advertisers who follow up replies promptly.

# Wall Street Prices Advance to Higher Levels Near Close

New York, Feb. 18.—A whirlwind finish sent the stock market higher today after lagging utilities had dragged it down most of the session. Gains of one to two points were frequent, and some of the outstanding issues were around three points better, completely wiping out losses registered after the supreme court tax decision.

Transfers approximated 3,500,000 shares, and the closing tone was firm with the exception of power securities.

Initial hesitancy of the list was overcome gradually, and the lagging utilities were left far behind by other shares.

Power stocks followed higher in a small way, cutting their extreme losses of the day by slight margins. They were, however, still losers.

Mixed trends were in evidence in foreign exchanges and commodities. Bonds, with the exception of utilities, were improved.

Heaviest gainers were U.S. Steel, Chrysler, American Crystal Sugar, Douglas Aircraft, United Aircraft, Curtiss-Wright, American Locomotive, Dupont, J. E. Case and International Harvester.

Others improved included Bethlehem, Southern Pacific, Illinois Central, Delaware and Hudson, New York Central, Baldwin Locomotive, American Car and Foundry, International Nickel, Packard, General Motors, American Telephone and Chrysler.

**DOJ AVERAGES**  
Thirty industrials—153.36, up 1.96  
Twenty rails—19.20, up 0.83  
Twenty utilities—32.50, up 0.30

The range of today's Dow Jones averages was as follows:

INDUSTRIALS  
11.00—153.27, up 0.87  
12.00—153.10, up 0.70  
1.00—152.11, up 0.71  
2.00—152.47, up 1.07

RAILS  
11.00—18.62, up 0.25  
12.00—18.54, up 0.17  
1.00—18.58, up 0.21  
2.00—18.93, up 0.54

UTILITIES  
11.00—32.60, up 0.69  
12.00—32.19, up 0.56  
1.00—32.12, up 0.45
